Trustee Secretary's Message

It is my honour to present to you the State of the Institute Report of 2020-21. IIHMR, Bangalore was setup in 2004 with the aim to promote Public Health education in South India. IIHMR, Bangalore has made its presence felt significantly in the southern states in Management Education, Research and Training in Healthcare. From the inception, the Institute has taken up research projects both in the public and private sector. The Institute carries the legacy of the Indian Institute of Health Management Research in Hospital and Health Management Education and Training.

The two-year Post Graduate Diploma in Hospital and Health Management (PGDM) has successfully developed management professionals in the health sector. The Institute had increased its intake of PGDM students from 60 to 120 and has launched a new specialization on Pharmaceutical Management from 2020. The flagship program of Post Graduate Diploma in Management - PGDM (Hospital and Health Management) has industry relevance and academically enriching courses based on many years of continuous development through pursuing inputs from industry leaders from both private and public sector. The experience and expertise gained by faculties through engagement in research and consultancy projects had resulted in improving the course structure and pedagogy.

The Institute with the launch of Certificate Courses, added one more feather to its cap. Keeping the changing industry needs in focus, programs for upskilling and reskilling of working professionals are developed. The Institute has launched unique collaborative programs: Integrated Digital Intensive Care Management, Certificate Course on Nutrition and Health, Managing of Digital and Connected Hospitals and Quality Assurance and NABH among many.

The pandemic had opened up new opportunities for our students in healthcare industry. The Institute has a good placement record year after year. The Institute's alumni have reached great heights in various technical and managerial positions and have proven that the academic insights they gained at IIHMR, Bangalore have kept them abreast and above the rest. I am proud of our alumni for their continuing efforts in making a difference in paradigm shift in the health and hospital sectors.

Congratulations to the faculty and staff for the successful completion of sixteen years of the Institute.
My best wishes to all!

S. D. Gupta

MD, PhD. (Johns Hopkins), FAMS

Director's Note

Institute of Health Management Research – South Campus, Bangalore is positioned to cater to the needs of the region in Education, Research, Consultancy, and Training in Hospital and Health Management area. At IIHMR, Bangalore, we are committed to improve the standards of health through better management of healthcare delivery by building capacity and human resource in the health sector in India and beyond.

I am happy to present the State of the Institute Report for the year 2020-2021. Second year into the impact of COVID 19, we not only strived hard but innovated on to show good growth in all our Academic Programs – Flagship education programme PGDM (Hospital & Health Management) has grown in strength. In the year 2020 we increased the batch size to 120 with AICTE's approval. The program is accredited by NBA and accorded MBA equivalence by AIU. Hybrid classes and capacity were ramped up quickly in response to COVID 19 situation. Placement of students from the program was not only satisfying but improved in terms of challenging and critical roles with enhanced compensations. Our collaborative programmes 1. Certificate Course on Nutrition and Health (Six Months) in collaboration with University of Mysore and 2. Integrated Digital Intensive Care Management Programme (Six Months) in collaboration with Cloudphysician were launched successfully.

Our research portfolio during this period expanded to implementation research on Universal Health Coverage on Scheduled Tribes supported by ICMR Tribal Task Force Research and Early Childhood Care and Development by HCL Foundation. Most of the Training Programs were offered online due to COVID and we were successful in a range of areas including Legal Aspects, COVID Safe Hospitals, Nutrition and Health and Quality among many others.

Conducting of online webinars to engage with many stakeholders including prospective Students, Alumni, Doctors, Pharma Industry, IT, Health Industry Experts etc., provided us a lot of learning opportunities as well as information dissemination from our research. Indeed, our reach and presence were felt much more strongly than ever before which brought new partners on board in our journey of healthcare management.

We have garnered new energy to work with health industry partners, move strongly into Health IT and Digital Health space as well as Pharma Management. This has provided a strong base for our growth in Health IT and Pharma Management specializations in the PGDM course. We sincerely thank the Healthcare Industry Partners, Senior Management/Advisors and Experts to have given us opportunities to grow in the emerging areas and take up new initiatives.

We are poised to build on our strong legacy with a vision to become a Leading Healthcare Management Institution in the years to come and expand into Digital Health Management/Entrepreneurship.

We are proud of our achievements during this year, yet humbled by the unconditional support by the industry and our professional growth.

Usha Manjunath PhD. M.Sc.

IIHMR South Campus, Bangalore

Established in 2004, the Institute of Health Management Research (IIHMR), Bangalore is the South Campus of IIHMR, Jaipur. In the year 2010, the Institute acquired AICTE approval for its Post Graduate Diploma in Health and Hospital Management (PGDHM), a flagship Programme in which Knowledge, Research and Training create a distinctive edge for developing Managers for the Hospital and Healthcare Industry. IIHMR, Bangalore leverages on the collective strength of nearly 70 faculty across campuses of the Institutes at Jaipur, Bangalore, and Delhi.

IIHMR, Bangalore also provides short term training programs like Effective Hospital Management, Healthcare Leadership and many customized trainings for Hospital and Healthcare organizations to improve the skill set of working professionals. IIHMR, Bangalore has a proven track record of doing high-end research work in the areas of Hospital and Healthcare Management.

In the year 2015, IIHMR, Bangalore became the first educational Institution in India to be accredited by NABET as Hospital and Healthcare Consultant Organization for NABH Standards. We assist hospitals and other healthcare organizations for NABH accreditation from QCI (Quality Council of India).

Our Mission

Institute of Health Management Research, Bangalore is an Institution dedicated to the improvement in standards of health through better Management of Healthcare and related Programs. It seeks to accomplish this through Management Research, Training Consultation and Institutional Networking in a National and Global perspective.

Thrust Areas

- Primary Health Care
- Health Informatics
- Health and Hospital Management
- Pharmaceutical Management
- Public Health
- Nutrition
- Population and Reproductive Health
- Economics and Finance NGO Management and Networking
- HIV/AIDS Program Management and Evaluation
- Digital Health

Technical Capabilities

- Educational Programmes, Training and Capacity building of Healthcare Personnel
- Health System Research Projects
- Quality Assurance – NABH & ISO Accreditation
- Feasibility Studies and Manpower Planning
- Planning, Implementation, Monitoring & Evaluation of Health Programmes

The Campus

Infrastructure

The Institute has a full-fledged campus spread over two acres in Electronics City Phase -I, Near Wipro Gate no. 11. The main building has an Academic Block, Computer Centre, Library, Lecture Halls, Conference Hall, Tutorial Rooms, Seminar Hall and Boys, Girls' common rooms and Medical Room. The seminar hall is well-equipped with all modern amenities with a seating capacity to accommodate approximately 150 participants.

Library and Information Centre

Library of IIHMR Bangalore is a central place for Academics, Knowledge Acquisition and Research activities. It has a rich collection of books, periodicals, dissertations, Project reports, Faculty Publications, and Case Studies. The library has a unique collection of publications in various fields such as Health Management, Hospital Management, Health Information Technology, Health Economics, Finance and Accounts, Biostatistics, Leadership, Public Health, Management Information Systems, Population Sciences and Health Informatics and Information Technology etc. Also, the collection of training Materials, Handbooks, Manuals, Reports, and Conference Proceedings are available. The library has a collection of more than 5100 volumes including textbooks, reference books, training manuals, reports, and conference proceedings. In addition, it has more than 800 students Thesis & Dissertation, 16 National and International journals, 10 Magazines and 10 Newspapers in various languages. The IIHMR Bangalore Library is now open access for its users and integrates with KOHA software along with OPAC Facility.

Due to COVID-19 situation, for the use of students, researchers, and faculty the library at IIHMR Bangalore made arrangements for remote access to e-Books and e-Journals. These include PROQUEST Social Science eBook, EBSCO Host Academic Collections, ABI Inform and J-Gate Plus: Social & Management Sciences, Arts & Humanities.

Library Services

Reference Assistance

Library provides in-person assistance at a designated Information or reference desk. The Librarian helps in locating materials, using the computerized catalogue and databases, or for information about library services.

News Paper Clipping Service

IIHMR-B library provides email alerts news in the field of Health, Hospital, HIT, Demography, Management, to all the library users daily. IIHMR, Bangalore library alerts users weekly regarding list of research articles appeared in journals, edited books, conference, seminars on health Management studies and related disciplines.

Reprographic Service: Photocopy

Photocopy and printing facility also available for student academic use. Photocopy in the library provides service at a nominal price for students and other scholars who access articles through J-Gate.

Information Technology Department

Computer Lab

The computer lab is well equipped with state-of-the-art computing resources in the campus. The lab has adequate infrastructure and services available throughout the year. It is equipped with the latest server, desktops, laptops, laser printers, video conferencing facility, and technically competent software and hardware professionals. The institute has a perpetual cloud-based campus agreement with Microsoft which allows using different Microsoft packages (Office 365) for academics, administration, research, finance, and faculty.

IT Services

Besides providing support to the ongoing activities of the institute like research, teaching and consultancy the centre is actively engaged in software development for managing health programs and hospitals effectively. The computer lab is equipped with language lab and statistical packages like SPSS and NVivo to cater to the needs of Academics, Data Analytics and Research projects. The campus has Wi-Fi-based wireless local area network connecting nodes throughout the campus through fibre optic-based wire.

The website management, digital marketing through social media (Facebook, Twitter, Instagram, LinkedIn etc.) and blogs are part of IT services.

IT - enabled services during COVID-19

The IT team supports in organizing online group discussion, personnel interviews through the Zoom platform. The IT team ensures that the students are prepared for virtual classes with all the necessary IT devices.

Many webinars are organized through Zoom Webinar. The IT centre plays a crucial role in organizing all the virtual events at IIHMR using Google Meet / Zoom Meeting / MS Teams. The Institute is fully equipped for on-line classes on regular basis.

Cafeteria

The Institute has a Cafeteria on the campus with a well-equipped modern & hygienic kitchen with a separate cooking area, storage area, washing area and dining hall with enough seating capacity with separate student & staff dining hall.

GYM & Sports

The Institute is equipped with Gym and Fitness centre facilities-Treadmill, Lat pulldown machine and more of the latest fitness equipment. The gym is open to all staff, faculty, and students of IIHMR Bangalore.

The campus has both indoor and outdoor facility for playing various games viz., Volleyball court, Badminton court, Gymnasium, Table Tennis, Chess and Carrom, etc.

Hostel

The Institute has a well-furnished hostel facility separately for both boys and girls with wi-fi, mess facility, 24*7 Security, housekeeping, drinking water, washing machine, common lobby cum recreation room (TV, Carrom, Chess) and transportation.

Awards

Educational Institute with Best Academic and Industry Interface Award – 2020

World Education Congress has awarded IIMR, Bangalore and recognized as Educational Institute with Best Academic and Industry Interface

Global Collaboration & Networking

IIHMR, Bangalore collaborates with various renowned National and International Healthcare Organizations and Academic Institutions, to provide holistic and contemporary healthcare management education to our students with a global perspective and for Research & Training Activities. Specially these collaborations facilitate our various academic activities viz., Student Summer Training, Internships, Recruitment and Conferences/Seminars. Below are few institutions having collaborations with IIHMR, Bangalore.

Karnataka Science & Technology Academy

In the year 2015, IIHMR, Bangalore became the 1st educational Institute in India to be accredited by NABET as Hospital and Healthcare Consultant organization for NABH standards.

Educational Programme

Post Graduate Diploma in Management

The Institute offers a two-year full-time Postgraduate Diploma in Management (PGDM) in Hospital and Health Management and offers specializations in Hospital Management, Health Management, Health Information Technology (HIT) Management and Pharmaceutical Management. PGDM is well designed to develop Professional Managers and targets Doctors, Bio-Tech Engineers, Pharmacy Graduates, Working Personnel, Life Science graduates and other degree holders and prepares them for careers in Hospital and Health Management. This program inculcates a holistic approach and enables students to prepare themselves for the ever-changing challenges that the healthcare industry faces.

The Program follows a term pattern spread over two years. The first year is common to all students covering core courses. In the first year in addition to the Core Courses, students are required to attend induction courses (non-graded courses) that provide basic skills and orientation. The second year has specialized courses in Hospital Management, Health Management, Healthcare Information Technology Management, and Pharmaceutical Management.

First Year

During the first year, the program aims at cultivating multi-disciplinary skills of health systems, management principles and communication which are common to all the streams.

Induction & Orientation Programme

- Human Process Lab
- Written & Oral Communication
- Essentials of Computers

Term I: Foundation Course

- Health and Development
- Principles of Management
- Health Policy and Healthcare Delivery Systems in India
- Essentials of Hospital Services
- Essentials of Biostatistics
- Essentials of Epidemiology
- Essential of Demography and Population Sciences

Hospital Observership

Hospital Observership is an integral part of the programme. The students are placed for 2 weeks in various Hospitals for practical exposure & learning.

Term II: Foundation Course

- Organizational Behaviour
- Marketing Management
- Human Resource Management
- Essentials of Health Economics
- Financial Accounting & Financial Management
- Communication Planning & Management
- Research Methodology & Community Studies

Second Year

In the second year, the students are required to opt for four areas of specialization: Hospital Management, Health Management, Healthcare Information Technology Management and Pharmaceutical Management. The following specialized courses are offered in the respective streams:

2nd Year

Specialization: Hospital Management

Term III

- Hospital Planning
- Organization and Management of Clinical Services
- Organization and Management of Support Services
- Organization and Management of Utility Services
- Data Management and Analysis
- Operations Management in Hospital
- Quality and Patient Safety
- Strategic Planning and Managed Care

Term IV

- Material and Equipment Management
- Marketing Management of Hospital Services
- Hospital Management Information System
- Health Insurance and Managed Care
- Legal Framework in Healthcare
- Disaster Management
- Clinical Epidemiology

Specialization: Health Management

Term III

- Data Management and Analysis
- Population Programme Management
- Applied Epidemiology
- Health Survey Research Methods
- National Health Programmes & NGO Management
- Health Management Information System
- Logistics and Supply Chain Management
- Quality Management in Healthcare

Term IV

- Health Insurance and Managed Care
- Operations Research
- Programme Planning, Implementation, Monitoring & Evaluation
- Strategic Planning and Management in Healthcare
- International Health
- Legal Framework in Healthcare
- Disaster Management

Specialization: Health IT Management

Term III

- Introduction to Healthcare Software Engineering
- Introduction to web tools
- Database Management System
- Healthcare IT Standards and Health Information Exchange
- HIMS & Clinical Health Information System
- Regulatory Aspects and IT Security
- Operations Research
- Basic Bioinformatics and Translational Bioinformatics

Term IV

- Introduction to Java
- Quality in Healthcare and IT
- Object Relational Database Management System (ORDBMS)
- Managing Healthcare IT Department
- Electronic Health Record (EHR) and ICT
- Data Mining and Data Warehousing
- Digital Imaging

Specialization: Pharmaceutical Management

Term III

- Introduction to Pharma Business Environment
- Production and Supply Chain Management
- Principles of Clinical Research and Drug Discovery
- Pharmacoeconomics
- Strategic Management
- Pharmaceutical Legal and Regulatory Environment

Term IV

- Pharmaceutical Marketing Management
- Pharmaceutical International Business
- Innovation and Entrepreneurship
- Digital Marketing
- Market Research, Data Analysis and Data Management in Pharmaceutical
- IPR in Pharmaceutical Management
- Advertising and Brand Management
- Business Communication in the Pharmaceutical Industry
- Consumer Behaviour
- Business Ethics and Indian Values
- Entrepreneurship Development in Pharmaceutical Industry
- Corporate Social Responsibility and Corporate Governance

Key Features of our Flagship Programme – PGDM

Accreditations and Approvals

Approved by AICTE
Ministry of Education
New Delhi

MBA Equivalence by AIU
(Valid upto 30.06.2022)

Accredited by NBA
(Valid upto 30.06.2022)

Observership

Hospital Observership is an integral part of our PGDM programme at IIHMR, Bangalore. It is for a period of 2 weeks and scheduled at the end of 1st term of PGDM students (usually in the first and second week of October).

Summer Training Programme

Summer Training is an integral part of the program. The students are placed for eight weeks in various designated Hospitals and Healthcare organizations for practical exposure and hands-on training in the first year.

Internship and Dissertation

Internship and Dissertation is an integral part of the Postgraduate Programme in Hospital and Health Management. As a part of the curriculum, each final year student is required to undergo an Internship and Dissertation with a healthcare organization for four months. During the internship, the student will assist the Administrator/ Manager in day-to-day operations. Through this process, he/she is expected to gain practical knowledge and skills to handle managerial issues related to major departments of the organization. Generally, students carryout their internship and dissertation in the organisation where they are placed for employment.

Guest Lectures & Industry Interfaces

As part of the course work, 'Guest Lecture Series' by eminent speakers from across the globe to enhance the competitive strength of our management students is organized periodically. The series is committed to seek out and provide a platform for spreading powerful ideologies relevant to the growing market. The series seeks to represent a diverse set of views and is epically focused on facing the current challenging norms and opportunities.

Certification

The student, upon successful completion of the course will be awarded "Post Graduate Diploma in Management (Hospital and Health) with specialization (as chosen by the student in the second year) from the Institute of Health Management Research, Bangalore which is approved by All India Council for Technical Education (AICTE), Ministry of Education, Govt. of India.

Eligibility Criteria

- Graduates from any background can apply for PGDM (MBA Equivalent)
- Candidates with min. 50% of marks & any management aptitude test score (CAT, MAT, CMAT, XAT, ATMA, GMAT, KMAT)
- Students appearing for final year exams can also apply for provisional admission (such students must submit all required mark sheets and documents within 2 months of the course start date)
- Candidates with experience/defence personnel are encouraged to seek admissions for career change/development

Admission Criteria

Candidates meeting the eligibility criteria can apply for PGDM programme. After submitting the application, all candidates shall appear for Group Discussion & Personal Interview (GD & PI). Based on the performance in GD & PI, the admission for PGDM would be offered.

Placements

The Institute has a Placement Committee comprises of the Dean -Academic and Student's Affairs, Faculty, Placement Officer and Student Representatives. The core activities of the placement cell primarily are placing students for Summer Training in the 1st year, Internship cum Placements in the 2nd year for the outgoing students. 100% Placement Assistance and Mentoring is provided by the Institute.

Placement Details of PGDM Batch 2020-21

All students were placed in various Health Care Organizations in India with an annual package ranging from 4.6-12 lakhs. The list of recruitment organizations where students are placed is given below:

- ACE Suhas Hospital, Bangalore
- Deloitte India US Consulting Pvt. Ltd., Bangalore
- AIG Hospitals, Hyderabad
- Allscripts (India) LLP, Pune
- Apollo Health and Lifestyle Limited, Delhi
- CARE India, Bangalore
- Fortis Hospitals, Bangalore
- HealthAsyst, Bangalore
- Impact Guru, Mumbai, Delhi, and Bangalore
- Indegene, Bangalore
- IQVIA RDS (India) Private Limited, Bangalore
- Karkinos Healthcare, Bangalore & Mumbai
- Life Circle Health Services, Bangalore
- LV Prasad Eye Institute, Hyderabad
- Max Healthcare, Gurugram
- Mayfair We Care India Pvt Ltd, Bangalore
- Medcover Hospitals, Nizamabad
- Narayana Health, Bangalore & Kolkata
- Poly Medicure Ltd, Bangalore

Convocation Ceremony

PGDM 2019-21 Batch: The Institute of Health Management Research (IIHMR), Bangalore organized its Annual Convocation (Virtual Convocation) for its 10th Batch of AICTE approved Post Graduate Diploma in Management (Hospital and Health Management) on Saturday, July 31, 2021.

The event was marked by the presence of **Dr. Vivek Talaulikar (CEO, Gleneagles Global Hospital Mumbai)** as the Special Guest, **Dr. J N Srivastava (Advisor- Quality Improvement, National Health Systems Resource Centre, GOI)** as Guest of Honour and **Dr. Professor Sadagopan, (Visiting Distinguished Professor, IIHMR, Bangalore)** as a Special Invitee. Convocation was chaired by **Dr. S. D. Gupta**, Trustee Secretary, IIHMR Society, Jaipur. The convocation ceremony was attended by various dignitaries of the Health Sector and the students. The 'gold medals' were awarded to Ms. Tumiki Harini from Hospital Management, Ms. Jyothi M Borkar from Health Information Technology Management.

Mr. Akash Sharma was awarded 'All Round Outstanding Achievement', Dr. Preethi Gopinathan Nair 'Enterprising Student' of the PGDM batch 2019-2021. 'Faculty Jury award' were presented to Dr. Dokku Gowthami and Ms. Jyothi M Borkar.

Inauguration Ceremony

Inaugural Ceremony for the Batch 2020-22 was held on 10th August 2020. The event was honoured by Mr. Siddharth Bhattacharya, Secretary- General, NATHEALTH, Healthcare Federation of India as Chief Guest, Ms. Nidhi Pundhir, Director, HCL Foundation as Guest of Honour, and Dr. Bhimaraya Metri, Director IIM Tiruchirappalli as a Keynote Speaker. The ceremony was graced with the presence of Dr. S D Gupta, Trustee Secretary, IIHMR Society and Governing Board Members of IIHMR, South Campus, Bangalore.

Internship Programme at IIHMR, Bangalore

The internship program at IIHMR, Bangalore is designed to offer exposure to students and working professionals from varied academic and professional backgrounds in healthcare and social sciences. It is an opportunity for students to transform their passion into results and become a part of our effort to various intellectual and developmental challenges. Students from the following National and International institutions completed their internship at IIHMR, Bangalore: University of Maastricht, Netherlands, Karunya Institute of Technology and Science, Coimbatore, SRM University, Chennai, Ashwini Ayurvedic Medical College and Research Centre, Tumkur, Karnataka, Bharathidasan University, Coimbatore, Prasanna School of Public Health, MAHE, Manipal, BNM Institute of Technology, Bangalore, and New Horizon College of Engineering, Bengaluru.

Research

On-Going Research Projects

Improving the Health Care Access and Quality in the Context of Achieving Universal Health Coverage (UHC) among Scheduled Tribes: An Implementation Research in Tumkur, Karnataka

Funding Agency: ICMR, New Delhi

Project Team: Dr. R. Sarala (PI), Dr. Usha Manjunath (Co-PI) and Mr. Rajendra. D

Location: Tumkur District, Karnataka

Duration: February 2020 to December 2022

As a part of the Task Force project, the study aims to develop implementation strategies towards achieving universal health coverage by identifying and addressing the implementation barriers to improve access to health care services of assured quality without suffering financial hardship to the people through the existing health care systems among the scheduled tribe population. The broad objective of the study is to assess the people's healthcare access in the vulnerability context of poverty and livelihood insecurity, and to understand the factors (individual-/community-/system-level) affecting the access to healthcare services and to identify key points to develop an intervention to improve healthcare access to the poor tribal population. The study setting is Tumkur district (Madhugiri -Control Taluk and Pavagada- Intervention Taluk) Karnataka State. The study is for a period of 30 months from Feb 2020. Study Design: Quasi-experimental and implementation research would be carried out in three phases (i) Formative Research (Pre-implementation phase), (ii) Intervention Development and Implementation, and (iii) Evaluation and Dissemination for Scaling-Up of Strategies. At present the project is in implementation phase, where the team is addressing the implementation issues related to Health and Wellness Centres, NCD and JSY.

Assessment of the Current Burden of Service Delivery on ASHAs and the Potential role of Multipurpose Health Worker in Task Sharing in Karnataka

Funding Agency:

India Health Systems Collaborative (IIHSC)

Project Team: Dr. R. Sarala (PI), Dr. Surya Prakash (Co-PI), Dr. Usha Manjunath, Dr. Deepashree M R, Mr. Rajendra. D and Dr. Mythri Shree

Location: Koppal, Mysore and Raichur districts of Karnataka

Duration: November 2020 to December 2021

IHSC was conceived as a platform to help bridge the gap between academia and policy practitioners. IHSC's vision and mandate is based on the necessity to achieve two key objectives. First is to provide necessary evidence for decision makers on policy questions that are critical to India's health system and the second, is to foster a sustainable network of health system researchers that will work in a consortium structure to develop a more systems-based approach to health research and reforms in India. Several studies suggest that ASHAs are often

overstretched given in their expanding mandate under NHM, which could result in gaps in delivery of services owing to number of tasks they are expected to cover, with task sharing is seen as possible solution to tackle this issue. This study focussed on assessment of the current burden of service delivery on ASHAs and the potential role of Multipurpose Health Worker in task sharing in Karnataka. The objectives of the study are as follows:

- To assess the current burden of service provision of ASHAs
- To assess the impact of ASHAs roles and responsibilities on their Quality of Life
- To suggest the potential role and structured task-shifting training strategies for revival and strengthening of multi-purpose health workers to effectively manage the emerging infectious and non-communicable diseases at community level.

MultiStage Random sampling design and mixed methodology was adopted for the study. Primary data was collected through quantitative and qualitative methods of data collection. i) Quantitative Method: a) Task Diary: Documentation of various activities and time spent for each activity in a day/week b) Quality of Life: WHO- QOL BREF was adopted ii) Qualitative Method: a) Small Focussed group discussion consisting of 3 to 5 members b) In-Depth Interviews (IDIs) c) Participant Observation and d) Key Informant Interviews (KIIs) with various stakeholders at Sector, Block, District and State level was carried out. The data is being analysed using NVivo Software.

Formative and Impact Assessment on Svasti-Nutrition for Women and Children Program in Kolar and Tumkur Districts, Karnataka

Agency: Bhoruka Charitable Trust (BCT)

Project Team: Dr. Usha Manjunath, Dr. Sarala. R,
Dr. Gyan Chandra Kashyap

Location: Kolar and Tumkur districts of Karnataka

Duration: January 2020 to Dec 2021

This study has been commenced by Bhoruka Charitable Trust and Spirulina Foundation to address a critical issue related to women and child health in Kolar and Tumkur district of Karnataka. The program aimed to improve the nutrition level and the overall health of the young child, adolescent girls, and lactating mothers by regularly providing the Spirulina Chickies. Institute of Health Management Research (IIHMR), Bangalore, is a nodal agency for conducting baseline and end-line survey to address the key issue related to health and nutrition of child and adolescent girls.

The objective of the study is to i) understand the knowledge and practice related to nutrition and anemia among children, adolescents, and lactating mothers ii) to assess the nutritional status and anemia among children, adolescents, and lactating mothers and iii) to assess the impact of the program on nutritional status and anemia among children, adolescents, and lactating mothers. The study has been carried out for a period of 7 Months, viz., three and a half months for each Formative and Impact Assessment in Kolar and Tumkur Districts, Karnataka. A cross-sectional study has been adopted to carry out the present study. The study has been carried out in selected 11 villages from 5 taluks of Kolar District. Total 1000 is the sample size for each formative and impact assessment, i.e., total 2200 covering children (0-12 years), adolescents' girls (13-18 years), and lactating mothers. In Tumkur, total 106 villages (108 AWCs in 9 circles) have been selected. Total sample size for each formative and impact assessment is 1500 covering children from 6 months to 6 years. Clinical & Biometric information such as height, weight, and haemoglobin have been collected from the selected participants of the study.

Early Childhood Care and Development (ECCD) and Comprehensive Health Centre in Urban Slums of Bangalore

Funding Agency: HCL Foundation

Team Members: Dr. Usha Manjunath (Project Director), Dr. R. Sarala (Project Coordinator), Dr. Deepashree, Ms. Ramya.T.Karur, and Ms. Kokila

Location: Maya Bazaar & Anandapuram (Bangalore)

This study focusses on underprivileged communities living in urban slums of Bangalore namely Maya Bazaar and Anandapuram. Early Childhood Care & Development (ECCD) centers (3 Creches) has been set-up under this project to guide and assist the development of five faculties (i.e., Cognitive, Language, Physical, Mote Personal, Social, and Emotional) among 0-6 years children. In addition, the study creates awareness about various health-related issues such as ANC, PNC, Delivery, Family Planning, Menstrual hygiene, Nutrition and Diet, Hygiene /WASH, NCDs, Abuse and government health Schemes among Reproductive age group women, Pregnant women, Men, Adolescent boys, and girls. Also, the study supports the community members in accessing various government health schemes and services through liaison with various healthcare stakeholders especially frontline workers. As part of the study, various activities viz., health camps, low-cost nutrition food preparation workshops for women, competition for children are being organised.

Completed Research and Consultancy Projects

Endline Assessment: A Study on Household Consumption Pattern and Nutritional Status of the Children in Jigani and Anekal Taluk, Bangalore

Consultant: Dr. R. Sarala

Funding Agency: United way, Bangalore, India

Location: Dommasandra, Bellandur and Mandur, Bangalore

Duration: March 2021

The study aimed i) to assess the household's consumption pattern and diet and ii) to assess the nutritional status of children enrolled in Anganwadi Centers in urban Bangalore. Methods and Materials: The study was carried out in three locations i.e., Bellanduru (10 AWCs), Dommasandra (15 AWCs), and Manduru (15 AWCs) of Bangalore city in Karnataka, covering the population of a total of 40 AWCs. Anthropometric measurement was assessed in total 596 children from 40 AWCs and a random sample of 166 mothers of the children in the study were interviewed to gather information related to household consumption pattern. SPSS, Excel and Anthropac were used for data analysis. WHO growth standards were followed for Nutritional Assessment of children household food consumption pattern and nutritional status of children using anthropometric measures in selected Anganwadi centers. The project was supported by Prof. Usha Manjunath, by reviewing and feedback on the report. Dr. Deepashree supported in training the field staffs and Mr. Rajendra in analysis of anthropometric data. Field supervision and coordination was supported by Ms. Ramya and field data collection by Mr. Madhusudhakar, Mr. Sivakumar, Ms. Renuka and Mr. Abhishek.

Impact of COVID 19 on Health and Nutritional Status among Young Children: A Qualitative Study in Selected Anganwadi Centers in Bengaluru Urban

Consultant: Dr. R. Sarala

Funding Agency: United way, Bangalore, India

Location: Jigani and Anekal Taluks of Bengaluru Urban District

Duration: October 2020

The objectives of the study were to assess the nutritional status and household food consumption pattern in the selected Anganwadis in Bengaluru Urban District. The study was conducted in Jigani and Anekal Taluks of Bengaluru Urban District. Five clusters namely, Bukkasagara, Byatarayanadoddi, Thigaralabeedhi, Shanubhoganahalli and Ayodhyanagar were selected for the study. A total of 22 children (of 21 mothers) were selected randomly. Anthropometric measurements viz., height, weight and MUAC were carried out among the sample children. Further, qualitative method viz., in depth interview was carried out with mothers/caretakers (6 months to 6 years children) to develop insights about knowledge, practices, and attitudes regarding nutrition, feeding practices and child development. The study was carried out a couple months after the lockdown was lifted (Phase 1) and this provided an opportunity to develop strategies to sustain the gains made during years before. Along with anthropometric measurement of the children, details of feeding practices, immunization, childcare, and WASH practices were explored at a deeper level to understand the situation. Prof. Usha Manjunath, IIHMR, Bangalore supported in qualitative data analysis, and report preparation. Dr. Deepashree M.R. and Dr. Mythri Shree supported in data collection.

Empowerment and Engagement of Community in Strengthening Child Health among Tribal Population

Agency: Indian Council for Medical Research (ICMR), New Delhi

Project Team: Dr. R. Sarala (PI), Dr. Usha Manjunath (Co-PI)

Location: Karnataka & Tamil Nadu

Duration: May 2017-October 2020

The study was for a period of 2 years and in three phases' viz., with Formative, Intervention, and Impact evaluation. The project empowered and engaged various stakeholders such as mothers of under-five children and adolescents, traditional tribal healthcare practitioners, medical practitioner and VHSNCs members on issues related to child health for sustaining positive health seeking behaviour in the community. Especially, adolescents were trained on child health issues and acted as "key change agent" by creating awareness and supporting the mothers of under-five children. The study focused on Particularly Vulnerable Group viz., Irulas from Thiruvallur district of Tamil Nadu & Jenu Kuruba from Mysore District of Karnataka. Using mixed methods, the study measured changes from baseline, in direct/indirect impact measures, including rates of child health specific awareness/attitudes, practices and socio-cultural dynamics of the uptake or not thereof the intervention.

The Functioning of Nutritional Rehabilitation Centres (NRCs)- A Comparative Study across the Regions in Karnataka

Agency: Karnataka Evaluation Authority (KEA)

Project Team: Dr. Manjunatha. R, Dr. Usha Manjunath, Dr. Gyan Chandra Kashyap, Dr. Tara M.S and Ms. Ramya. T. Karur

Location: Bangalore, Dharwad, Raichur, Kodagu, Chitradurga, Chikkamagalur, Gadag & Koppal

Duration: August 2018 - September 2020

To address the challenges of malnutrition and treat SAM, the Govt. has set up Nutritional Rehabilitation Centres (NRC) and there are 896 NRCs functional in 25 States/Union Territories under the National Health Mission. NRC is a special unit located in a health facility and dedicated to the initial management and nutrition rehabilitation of children with SAM. In general, they are preferably located at District hospitals/Medical College Hospitals and have 10-20 beds. There are 32 NRCs (3 in Bangalore Urban and one each in all Districts except Bangalore Rural) and 27 Modified NRC (MNRC) at First Referral Unit/Taluka level hospitals in Karnataka. SAM children admitted in these centres are provided medical and nutritional therapeutic care as per SAM management guidelines of the World Health Organization (WHO) and Indian Academy of Paediatrics. This study aimed to assess the functioning of NRCs in different regions of Karnataka. The evaluation design included secondary data review and analysis, quantitative and qualitative methodology to arrive at objective and accurate results. This evaluation project was conducted for 6 months. The design planned with a Structure-Process-Output/Outcome framework to guide systematic thinking, planning and execution of the evaluation project. The design allowed for on-going validation of methods, tools, sample size, data quality, analysis framework and report by Advisors/Subject experts in Nutrition and Public Health.

Management Development Programmes & Certification Courses

Managing and Sustaining Home Healthcare Business

Date: 3rd to 5th March 2021

Co-ordinators: Mr. Piyush Kumar, Dr. Krishnakumar, Mr. Jayant Singh, Mr. Sachin Joldeo, Dr. Mahesh Joshi and Dr. Kirti Udayai

The objective of the program was to develop an in-depth understanding on home health care advances and current changes in home healthcare business environment. It also focused on improving quality of care and exploring the marketing potential of home care business. Participants were from healthcare sector as well as management sectors.

Aspire

IIHMR, Bangalore organized a student engagement activity viz., 'Aspire' on 10th March 2021 to disseminate about PGDM in Health and Hospital Management. Dr. Kirti Udayai, Dr. Aanchal and Dr. Richa Singh were the speakers. Ms Joyce Jaison moderated the session.

The poster features a blue and white color scheme with a background image of a modern building. At the top right, there are social media icons for Facebook, Instagram, YouTube, LinkedIn, and Twitter, followed by the text "/ IIHMRBangalorecampus". The IIHMR BANGALORE logo is prominently displayed in the upper center. The main headline, "Confused about your next big step in the Healthcare Industry?", is written in a large, bold, sans-serif font. Below this, the event details are listed: "Every 1st and 3rd Saturday" accompanied by a calendar icon, and "3 pm – 4pm on Virtual Platform" with a clock icon. The text "IIHMR BANGALORE invites you to" is written in a smaller, elegant font above the word "ASPIRE" in large, bold, white capital letters. A white arrow icon points to the right, leading to the text "An Online Career Counselling Session with many prominent experts from the Healthcare Industry". At the bottom left, there is a "Know More" link with a horizontal line. The bottom right corner shows a globe icon and the website "www.iihmrbangalore.edu.in". A photograph of four students in business attire looking at a document is positioned in the bottom right corner.

Glimpses of life at IIHMR

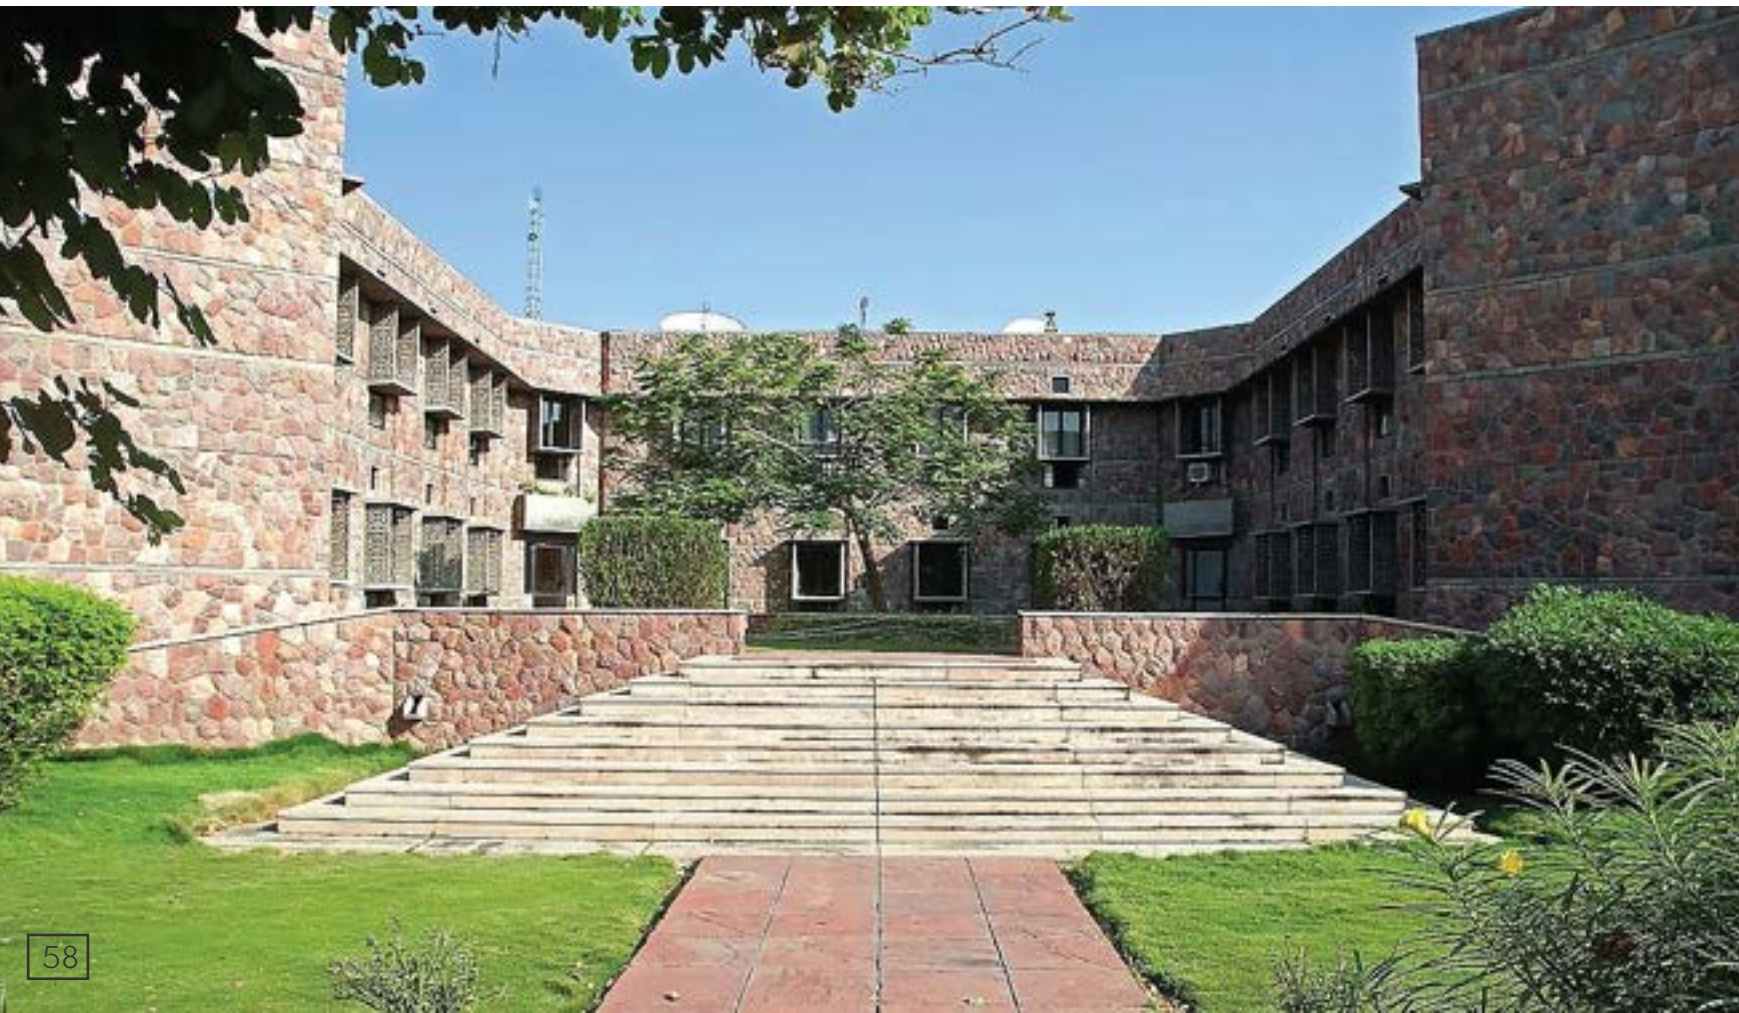

About IIHMR

Indian Institute of Health Management Research (IIHMR)-Society, Jaipur

The Indian Institute of Health Management Research (Society) was established in 1984 at Jaipur with focus on Public Health and Hospital Management. The IIHMR Society established campuses at Jaipur, Delhi and Bangalore over the years. IIHMR – Jaipur is a WHO Collaborating Centre and has been designated as an Institute of Excellence by Ministry of Health & Family Welfare, Government of India. Recently, it became a State University for Healthcare Management Research.

<http://www.iihmr.org/>

IIHMR University, Jaipur

The IIHMR University is a specialized and exclusive research university for management research, postgraduate education and training. The University aims to generate new knowledge and technologies to provide evidence and inputs for developing effective policies, health interventions and strategies. The origin of the IIHMR University has its roots in the significant pioneering contribution of Institute of Health Management Research, (IIHMR) Jaipur over the last three decades, towards policy and program management research, capacity development in health and hospital management in India and South East Asia. The IIHMR University has a mission to improve the standards of health through better management of health care and related programs through management research, education, training and institutional networking with a national and global perspective. The Ministry of Health and Family Welfare, Government of India identified it as an Institute of Excellence for training and capacity building. For its significant contributions towards health, hospital, rural and pharmaceutical management education, the university has been awarded several Leadership and Best sectoral B-school awards. In addition, IIHMR has become a major destination for training and capacity development in leadership and strategic management, hospital management, disaster management, quality management, project management, health management information systems, health economics and finance.

<https://iihmr.edu.in/>

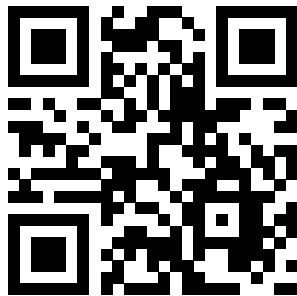

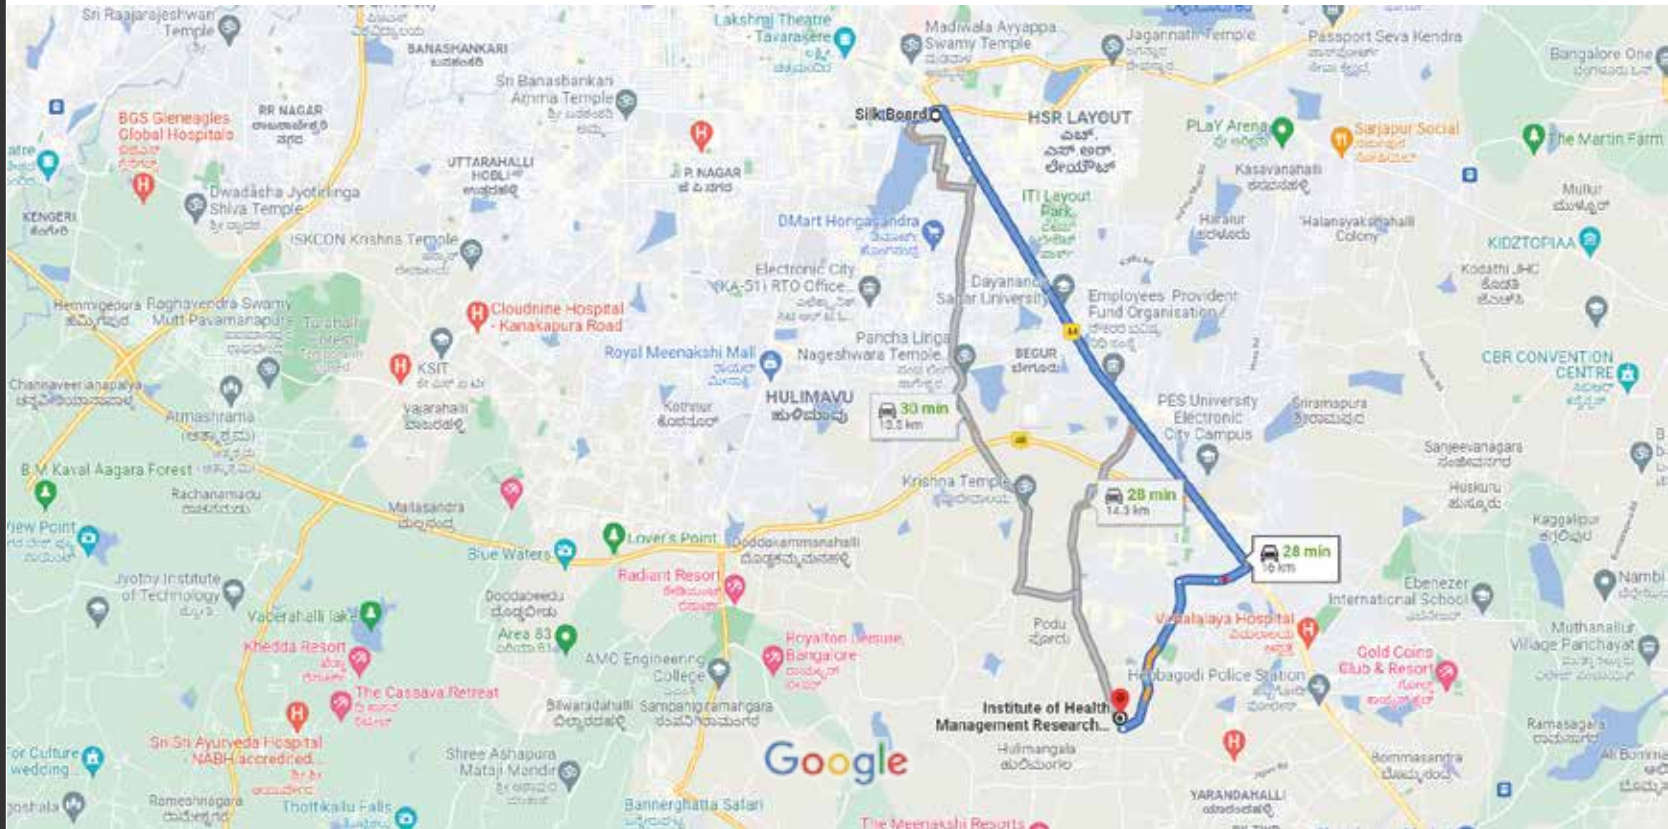

International Institute of Health Management Research, Delhi

IHMR Delhi, a part of the IIHMR Society, was founded on 18th August 2008, with a mandate to focus on national and international health, catering to the growing needs of the country as well as those of the Asia-Pacific region. The Institute aims to play a major role in promoting and conducting research in evidence generation that can lead to policy formulation, strategy development and effective implementation of policies and training and capacity development of professionals for the healthcare sector. It undertakes intervention research, evaluation studies and operational research studies. The Institute offers a two-year full-time Postgraduate Diploma with specialization in Hospital Management, Health Management and Healthcare Information Technology. The program is approved by the All India Council for Technical Education (AICTE) and has been accredited by the National Board of Accreditation (NBA). The institute has obtained approval by the All India University (AIU) that makes the PGDHM course offered, equivalent to a MBA degree. To meet the educational challenges of the rapidly growing health sector in India, IIHMR Delhi equips its students with a strong managerial and technical foundation for careers in consulting, hospital management, health care systems, healthcare quality management, health insurance and healthcare information technology, health based research, business analysis and transformation. The aesthetically designed and magnificently built campus of IIHMR is located in Dwarka, New Delhi.
