HEALTHTECH ACADEMIA SUMMIT:

HARNESSING AI AND DATA SCIENCE IN HEALTHCARE

Advancing HealthTech Together

Date & Time
14 June 2024, 02:30 PM

Venue
The Capitol Hotel, Bangalore
A highlight of this summit is the groundbreaking launch of the Post Graduate Diploma in Management (PGDM) in Artificial Intelligence & Data Science in Healthcare. This program is the first of its kind in India and has received approval from the All India Council for Technical Education (AICTE). It is a 2-year program which signifies a monumental step forward in integrating advanced technological education with healthcare management.

This unique PGDM program aims to equip students with the necessary skills and knowledge to excel in the rapidly evolving fields of AI and data science within the healthcare sector. The curriculum is designed to address the growing demand for professionals who can leverage AI and data analytics to improve healthcare delivery, enhance patient outcomes, and drive innovation in medical research and practice.

About Event

IIHMR Bangalore is thrilled to host the HealthTech Academia Summit, a premier event set to revolutionize the intersection of healthcare, technology, and Academia. This summit serves as a melting pot for industry leaders, academic scholars, healthcare professionals, and tech enthusiasts, all coming together to explore the future of healthcare innovation.

Launch of PGDM – Artificial Intelligence & Data Science in Healthcare

A highlight of this summit is the groundbreaking launch of the Post Graduate Diploma in Management (PGDM) in Artificial Intelligence & Data Science in Healthcare. This program is the first of its kind in India and has received approval from the All India Council for Technical Education (AICTE). It is a 2-year program which signifies a monumental step forward in integrating advanced technological education with healthcare management.

This unique PGDM program aims to equip students with the necessary skills and knowledge to excel in the rapidly evolving fields of AI and data science within the healthcare sector. The curriculum is designed to address the growing demand for professionals who can leverage AI and data analytics to improve healthcare delivery, enhance patient outcomes, and drive innovation in medical research and practice.

Event Highlights
