After the dramatic auction ceremony, the four teams — Spartans, Falcons, Phoenix and Vikings — were ready with their strategy. The week-long sports events commenced on 28<sup>th</sup> March 2022 and concluded on 1<sup>st</sup> April 2022 with varied sports activities ranging from table tennis to throw ball and badminton to chess, tug of war and the tornado of a treasure hunt that it was. The campus reverberated with a loud cheer when the overall winner of Jazba 2022 was announced. Team Spartans took away this year's trophy and Team Phoenix, not lagging so far behind, settled with the runner-up trophy.</p> |

Description (min 250 to max 800 words)\*

Entrepreneurship club (E-cell) IIHMR, Bangalore had the privilege to host Mr. Mohan Kumar CV for a captivating guest lecture on creative problem-solving techniques. Mr. Kumar emphasized the intrinsic importance of hard work, drawing inspiration from the Mahabharata, where Lord Krishna states, "Do your work with the welfare of others always in mind." To illustrate creative thinking, Mr. Kumar shared insightful videos of a Japanese artist crafting art from waste, underscoring the potential in reimagining the ordinary. He also narrated the crow story, highlighting the significance of resourcefulness in problem solving. The session progressed with an engaging group activity. Participants identified real-life problems and collaboratively devised innovative solutions, applying the principles discussed. This hands-on approach reinforced the practical application of creative problem solving techniques. Further enriching the experience, Mr. Kumar introduced the concept of different thinking styles and the "6 Thinking Hats" theory. The subsequent group activity encouraged participants to don different metaphorical hats, fostering
