POLICY DOCUMENT ON THE GREEN CAMPUS

IIHMR is famous in this zone for its beautiful campus. the campus is surrounded by lush green area. We try our best to maintain and protect our own environment with our green campus initiative and keeps pollution free campus. Environment development is our basic work with the educational policies implemented on the campus. The green atmosphere of the institute is largely due to tree plantation. There are different types of trees and plants in the campus. Trees have nearly covered the fencing area. They help to maintain the ecosystem. Planting of sapling by the Management, Director, Faculties, Students and Staff at various function inbuilt an eco-consciousness in their collage practices.

Our environment policy:

- ❖ To create awareness regarding environmental policy amongst the students management and near by villagers.
- ❖ As per the government rules and regulation regarding the instruction of tobacco free campus signboards are displayed at various places on the campus. Pollution free campus is maintained by ban on use of single use plastics in the campus.
- ❖ To sensitize the students and staff regarding the use of drinking water properly for which, we have provided purified (RO aqua guard) drinking water facilities on the campus.
- ❖ To bring in use the "Rain water Harvesting" on the campus. we have collected the rain water from the roof and it is percolated in the land through borewell.
- ❖ Circular by Director regarding use of public transport or carpooling or use of bicycle. It helps to save the fuel, avoid the environment pollution.
- ❖ To maximize the use of ICT and minimize the use of paper. It will help to go towards paperless office.

Director

PLASTIC FREE CAMPUS POLICY

Plastics, being a Hazardous element in the society posing a major threat to the livelihood of Mankind and other being in the world, the environment is getting polluted at the never before pace sparing no mediums due to plastics. So, it is becoming a key responsibility of every citizen of our country not just to "Say No to Plastics" but also to create awareness among the community as whole to stop this pollution and leave behind a green and pollution free place for our future generations.

So, strongly supporting the cause, from 2nd August 2021, IIHMR Bangalore, will implement the phase-wise ban on use of Plastics in its campus, in particular single use plastics.

Definitions: campus: Anywhere within the boundary of the institute.

Event: Any activity, meeting, conference, seminar, workshop, performance, speech, or gathering that takes place on the Campus.

Single use: Any item designed to be used once and then disposed of or destroyed.

Single-use plastic food service ware: Any bags, straws, cups, containers, lids, cutlery, stirrers, or plates that are made of plastic and intended only for one-time use. This definition includes compostable or biodegradable plastics (such as Oxo biodegradable or vegetable-based plastics) meeting these criteria.

Single-use plastic bottles: Any formed or moulded containers comprised predominantly of plastic resin and intended primarily as a single-use container containing any beverage for human consumption. This definition includes compostable or biodegradable plastic bottles meeting these criteria.

Single-use plastic banners: Any shape of banner made of plastic and intended only for onetime use. This definition includes compostable or biodegradable plastics (such as Oxo biodegradable or vegetable-based plastics) meeting these criteria.

Environmentally responsible alternatives: Any item or system that can replace the items restricted by the policy that is completely free of disposable plastic. Compostable: Made solely of organic substances that break down into a stable product due to the action of bacteria in a controlled, aerobic process that result in a material safe and desirable as a soil amendment.

Biodegradable: Made solely of substances capable of being decomposed by bacteria or another living organism.

Academic Year: 2018-19

Activity: *Plantation Drive*

Participants Count: 35

Date of Activity: 23-07-2018

Place: GK Meadows, Shikaripalaya Road

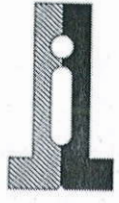

Objective: To educate students about the importance of environmental conservation and encourage active participation in tree plantation activities on World Earth Day.

After organizing a Plantation Drive on World Earth Day, the students have gained a better understanding of the importance of environmental conservation. They actively participated in planting trees, which not only improved the local environment but also fostered a sense of responsibility towards nature. By engaging in this event, students have taken a step towards becoming environmentally conscious individuals who are committed to preserving the planet for future generations.

Description (min 250 to max 800 words)*

As a part of world environment day on June 6, 2022 Institute of Health Management Research (IIHMR-B) took a significant step towards sustainability and environmental conservation. With our dedicated staffs, Dr. Jyoti Vijay, Dr. Rajeshwari and Dr. Deepa Shree, 13 enthusiastic student volunteer planted trees and contributed to a greener future. Students along with teachers got to work digging, planting and watering trees that will grow and thrive in our own local ecosystem. The event was a resounding success fostering the sense of community and responsibility towards our environment. Each tree planted represents our commitment to combat climate change and create a healthier planet for future generations. As healthcare management students, we recognize the intrinsic link between a healthy environment and public health.

Let's continue to nurture our environment and inspire others to take action for a sustainable future.

Description (min 250 to max 800 words)*

The Institute of Health Management Research (IIHMR-B) took a significant step toward sustainability and environmental conservation. Led by our dedicated staff, Dr. Jyoti Vijay and Dr. Deepa Shree, along with 20 enthusiastic student volunteers, we planted trees and contributed to a greener future. Together, students and teachers dug, planted, and watered trees that will thrive in our local ecosystem.

The event was a resounding success, fostering a sense of community and responsibility toward our environment. Each tree planted symbolizes our commitment to combating climate change and creating a healthier planet for future generations. As healthcare management students, we understand the vital connection between a healthy environment and public health.

Environmental Audit Certificate 2022-23

Elion Technologies & Consulting Pvt Ltd

Certificate

This is to certify that Environment Audit at **Institute of Health Management Research, No. 319, Hulimangala, Electronic City phase 1, Bangalore, Karnataka, 560105** was carried out for the year 2022 - 23.

The campus has supplied essential data and credentials for evaluation. It utilizes energy efficient electrical equipments such as LED lighting and sensor based lighting and has implemented a rainwater harvesting system installed in the campus.

Acknowledgement

Elion Technologies and Consulting Pvt Ltd thanks the management of IHMR, Bangalore for assigning this important work of Environmental Audit. We appreciate the co-operation to our team for completion of study.

For giving us necessary inputs to carry out this very vital exercise of Environment Audit. We are also thankful to other staff members who were actively involved while collecting the data and conducting field measurements.

Concept

The term 'Environmental audit' means differently to different people. Terms like 'assessment', 'survey' and 'review' are also used to describe similar activities. Furthermore, some organizations believe that an 'environmental audit' addresses only environmental matters, whereas others use the term to mean an audit of health, safety and environment-related matters. Although there is no universal definition of Environmental Audit, many leading companies/ institutions follow the basic philosophy and approach summarized by the broad definition adopted by the International Chambers of Commerce (ICC) in its publication of Environmental Auditing (1989).

The ICC defines Environmental Auditing as:

"A management tool comprising a systematic, documented, periodic and objective evaluation of how well environmental organization, management and equipment are performing with the aim of safeguarding the environment and natural resources in its operations/projects."

The European Commission, in its proposed regulation on environmental auditing, has also adopted the ICC definition of Environmental Audit.

Introduction

A clean and healthy environment aids effective learning and provides a conducive learning environment. There are various efforts around the world to address environmental education issues.

Environmental Management Systems (EMS) is very popular in the industrial sector, but the general belief is that EMS is something pertaining to industries only. Other parts of the world have started adopting compatible environmental management systems either voluntarily or for promoting standards by external certification. International environmental standards do not suit the existing Indian educational system.

A very simple indigenized system has been devised to monitor the environmental performance of educational institutions. It comes with a series of questions to be answered on a regular basis. Environmental conditions may be monitored from angles that are relevant to Indian requirements, without stress on legal issues or compliance. This innovative scheme is user- friendly and totally voluntary. The environmental monitoring system helps the institution to set environmental examples for the community and to educate young learners. It can be adapted to urban and / or rural situations.

Asha Mangrath

Overview of Campus

Institute of Health Management Research, Bangalore (IIHMR, Bangalore) is a premier Institute for Hospital and Health management education in South India. IIHMR was previously known as the Indian Institute of Health Management Research. IIHMR Bangalore has a legacy extending over a decade imparting Health and Hospital management education, Training, and Research activities in South India. The campus is situated in Silicon Valley at Electronic City Phase -1 and is surrounded by organisations like Wipro, HP, Infosys, and many other leading IT and allied companies.

IIHMR Bangalore was founded in 2004 as the south campus of IIHMR Group of Institutions, offering flagship programmes in Hospital and Health Management. In the year 2010, IIHMR, Bangalore got approval from AICTE (All India Council for Technical Education), Ministry of HRD, Govt. of India to offer a two-year full-time PGDM (Post Graduate Diploma in Hospital and Health Management) programme with specialisations in Hospital Management, Health Management, Health Information Technology (HIT) Management and Pharmaceutical Management. The PGDM course has been designed and updated regularly by faculties and Healthcare Industry experts to match the Industry needs.

Students, after completing of this course, can look at lucrative career options and campus placements in Clinical Operations, Non-Clinical Operations, HR, Administration, Quality, Sales, Business Development, Health Finance, Patient Care, Customer Service, Telemedicine, Medical Tourism, etc.

Some of our Alumni work with companies such as Gleneagles Global, Apollo Hospital, Mission Hospital, NH, Columbia Asia, Nationwide clinic, Global Hospitals, Manipal Hospital, Sagar Hospital, Vikram Hospital, Fortis Hospital, Yashomati Hospital, Brook Field Hospital, Ramakrishna Hospital, Moolchand Hospital, Boruka Netralaya Hospital, Asian Heart Institute, Cloud Nine Hospital, Sakra, Healthcare At Home, Telerad RxDx, Cadabams Hospital, etc.

List of courses offered by the institute:

- PGDM – Hospital and Health Management

Audit Objectives

The broad aims/ benefits of the eco-auditing system would be –

- Environmental education through systematic environmental management approach.
- Improving environmental standards.
- Benchmarking for environmental protection initiatives.
- Reduction in resource use.
- Financial savings through a reduction in resource use.
- Curriculum enrichment through practical experience.
- Development of ownership, personal and social responsibility for the college campus and its environment.
- Enhancement of university profile.
- Developing an environmental ethic and value systems in young people.

Disha Manjunath

Executive Summary

An environmental audit is a snapshot in time, in which one assesses campus performance in complying with applicable environmental laws and regulations. Though a helpful benchmark, the audit almost immediately becomes outdated unless there is some mechanism in place to continue the effort of monitoring environmental compliance.

Audit criterion is environmental cognizance, waste minimization and management, biodiversity conservation, water conservation, energy conservation and environmental legislative compliance by the campus. A questionnaire is used during audit. This audit report contains observations and recommendations for improvement of environmental consciousness.

Environmental Audit

The areas of eco/environmental/green auditing to be followed/practiced by participating institutions:

- I. Waste Minimization and Recycling
- II. Greening
- III. Energy Conservation
- IV. Water Conservation
- V. Clean Air
- VI. Animal Welfare
- VII. Environmental Legislative
- VIII. General Practices

Is any Environmental Audit conducted earlier?
No, this is the first time.

What is the total permanent population of the Campus?

	Male	Female	Total
Students	68	144	212
Teachers	6	7	13
Non-Teaching Staff	16	14	30
Sub Total	90	165	255
Approximate Number of Visitors (Per day)			12
What is the total number of working days of your campus in a year?			267

Where is the campus located?

The campus is Located at Electronic City Phase 1, Bangalore, Karnataka.

Which of the following are available in your campus?

1	Garden area	Yes
2	Playground	Yes
3	Kitchen	Yes
4	Toilets	Yes
5	Garbage Or Waste Store Yard	Yes
6	Laboratory	No
7	Canteen	Yes
8	Hostel Facility (Numbers)	Yes, 1
9	Guest House	No

Which of the following are found near your campus?

1	Municipal dump yard	No
2	Garbage heap	No
3	Public convenience	Yes
4	Sewer line	No
5	Stagnant water	No
6	Open drainage	No
7	Industry – (Mention the type)	Yes
8	Bus / Railway station	Yes
9	Market / Shopping complex / Public halls	Yes

I - WASTE MINIMIZATION AND RECYCLING

1.	Does your campus generate any waste? If so, what are they?	Yes. Routine waste is generated which include papers, green leaves (further goes to Compost pit) etc.
2.	What is the approximate amount of waste generated per day? (in Kilograms/month) (approx.)	4 – 5 KG/Day
3.	How is the waste generated in the campus managed? By 1 Composting 2 Recycling 3 Reusing 4 Others(specify)	Composting is done for dry green waste
4.	Do you use recycled paper in campus?	No
5.	Do you use reused paper in campus?	Yes (one sided printing papers will be used for re print or rough notes).
6.	How would you spread the message of recycling to others in the community? Have you taken any initiatives? If yes, please specify.	Swachh Bharat initiative to Government schools, plantation of plants on environment day.
7.	Can you achieve zero garbage in your campus? If yes, how?	The amount of waste generated is reduced gradually.

II – GREENING THE CAMPUS

1.	Is there a garden in your campus?	Yes
2.	Do students spend time in the garden?	Yes
3.	Total number of Plants in Campus	340 trees and more than 100 plants.
4.	Provide some names of trees and plants in the campus.	Jacavamda, Ashoka Tree, Christmas Tree, Fruit trees (Jackfruit, Cheeku, Mango, Butter fruit, Badam, Coconut, Guava, berries, Gooseberry)
5.	Is the university campus have any Horticulture Department?	No
	If yes, number of Staff working in Horticulture Department?	NA
6.	Number of Tree Plantation Drives organized by institute per annum.(If Any)	3 (Environment Day)
7.	Number of Trees Planted in Last year.	8
	Survival Rate	90%
8.	Plant Distribution Program for Students and Community	Yes
9.	Plant Ownership Program	No

III – ENERGY

1.	List down ways that you use energy in your campus. (Electricity, LPG, firewood, others). Using this list, try to think of ways that you could use less energy every day.	<ul style="list-style-type: none"> 1. Electricity Supply from Distribution board. 2. LPG in canteen.
2.	Are there any energy saving methods, equipments, techniques employed in your campus? If yes, please specify. If no, suggest some	<ul style="list-style-type: none"> 1. Use of sensor-based lighting in corridors and washrooms. 2. LED based lights in classrooms 3. Signages for energy conservation are displayed in every room.
3.	Give an estimate of number of lights installed in your campus along with numbers?	Approx. 400 lights (LED).
4.	Are any alternative energy sources employed/ installed in your campus? (photovoltaic cells for solar energy, windmill, energy efficient stoves, etc.,) Specify.	Yes, Solar Energy and Solar Lights
5.	Do you run "switch off" drills at campus?	Yes
6.	Are your computers and other equipment's put-on power-saving mode?	Yes
7.	Does your machinery (TV, AC, Computer, weighing balance, printers, etc.) run on standby modes most of the time? If yes, how many hours?	Yes

IV - WATER CONSERVATION

1.	List all the uses of water in your campus?	<ol style="list-style-type: none"> 1. Drinking Purpose. 2. Sanitary Purpose. 3. Gardening.
2.	How does your campus store water? (mention tanks with capacity) Are there any water saving techniques followed in your campus?	Underground tank of capacity 25KL and Overhead tank of capacity 10KL.
3.	If there is water wastage, specify why and how can the wastage be prevented/ stopped?	No wastage as such.
4.	Locate the point of entry of water and point of exit of waste water in your campus. Entry- Exit-	Entry - Bore well Exit – Sewage/drainage line
5.	Write down few ways that could reduce the amount of water used in your campus?	<ol style="list-style-type: none"> 1. Detect and repair leakages at Institute taps so that wastage of water will get reduced. 2. Avoid flushing the toilet unnecessarily.
6.	Record water use from the campus water meter for six months (record at the same time of each day). At the end of the period, compile a table to show how many litres of water have been used.	No meter available.
7.	Does your campus harvest rainwater? (Please explain the method and uses)	Yes, water from rooftops is collected in rainwater harvesting tank/sump and is reused for gardening and cleaning.

8.	Is there any water recycling System.	No water recycling system.
----	--------------------------------------	----------------------------

V - CLEAN AIR

1.	Are the Rooms in Campus are Well Ventilated?	Yes				
2.	Number of windows per room (aggregate value to be provided)	3 – 4 windows per room.				
3.	What is the ownership of the vehicles used by your institute? (Please Tick ✓ only one)	<input checked="" type="checkbox"/>	No owned vehicles at Institute			
		<input type="checkbox"/>	Operator-owned vehicles			
		<input type="checkbox"/>	Institute-owned vehicles			
		<input type="checkbox"/>	A combination of campus-owned and operator-owned vehicles			
4.	Provide details of institute-owned motorized vehicles?	Buses	Cars	Vans	Other	Total
	No. of vehicles	-	-	-	-	-
	No. of vehicles more than five years old	-	-	-	-	-
	No. of Air conditioned vehicles	-	-	-	-	-
	PUC done	-	-	-	-	-
5.	Specify the type of fuel used by your institute's vehicles:	Buses	Cars	Vans	Other	
	Diesel	-	-	-	-	
	Petrol	-	-	-	-	
	CNG	-	-	-	-	
	LPG	-	-	-	-	
	Electric	-	-	-	-	
6.	Air Quality Monitoring Program (If Any)	No				
7.	Students suffer from respiratory ailments? (If Any)	No				
8.	Details of Diesel/Gas Generator. (Rating & Make)	1 number of Diesel Generator (Cumins Model 6BTAA5.9-G1)				

VI – ANIMAL WELFARE

1.	List the animals (wild and domestic) found on the campus (dogs, cats, squirrels, birds, insects, etc.) (if any)	NA
2.	How many dogs in your area have undergone Animal Birth Control - Anti Rabies (ABC - AR)?	NA
3.	Does your campus have a Biodiversity Program or a KARUNA CLUB?	NA

VII - ENVIRONMENTAL LEGISLATIVE COMPLIANCE

1.	Are you aware of any environmental Laws pertaining to different aspects of environmental management?	NA
2.	Does your campus have any rules to protect the environment? List possible rules you could include.	Yes, Plastic free campus policy.
3.	Does Environmental Ambient Air Quality Monitoring conducted by the Campus?	NA
4.	Does Environmental Water and Wastewater Quality monitoring conducted by the Campus?	NA
5.	Does stack monitoring of DG sets conducted by the Campus?	Yes
6.	Is any warning notice, letter issued by state government bodies?	NA

7.	Does any Hazardous waste generated by the Campus? If yes explain its category and disposal method.	NA
8.	Dose any Bio medical waste generated by the Campus? If yes explain its category and disposal method.	NA

VIII - GENERAL

1.	Are you aware of any environmental Laws pertaining to different aspects of environmental management?	NA
2.	Does your campus have any rules to protect the environment? List possible rules you could include.	Yes, Plastic free campus policy, green initiatives, Green Committee
3.	What is the housekeeping schedule of garden and common areas in your campus?	Daily Cleaning during college hours
4.	Are students and faculties aware of environmental cleanliness ways? If Yes Explain	Yes, students and faculty are typically made aware of environmental cleanliness practices through various initiatives and programs. These may include: <ol style="list-style-type: none"> 1. Workshops/seminars 2. Green initiatives 3. Plastic free policy 4. Practical involvement through celebrating Swacch Bharat Day
5.	Does Important Days Like World Environment Day, Earth Day, and Ozone Day etc. celebrated in your Campus?	Yes
6.	Does Campus participated in National and Local Environmental Protection Movement?	No
7.	Does Campus has any Recognition/certification for environment friendliness?	No

8.	Does Campus using renewable energy?	Yes, the institution has Solar Energy
9.	Does Institution conducts a green/environmental audit of its campus?	No, this is first time.
10.	Has the institution been audited/ accredited by any other agency such as NABL, NABET, TQPM, NAAC etc.?	Yes, the Institution is accredited by NABET.

Recommendations

- Environment Policy to be adopted by the Campus.
- Equipment's when not in use shall be switched off and should not run in standby modes or ideal.
- Installation of water meter at borewell for monitoring of daily water consumption.
- Indoor Air quality monitoring shall be carried out.
- More awareness programmes shall be carried out for promoting environmental awareness in nearby areas.

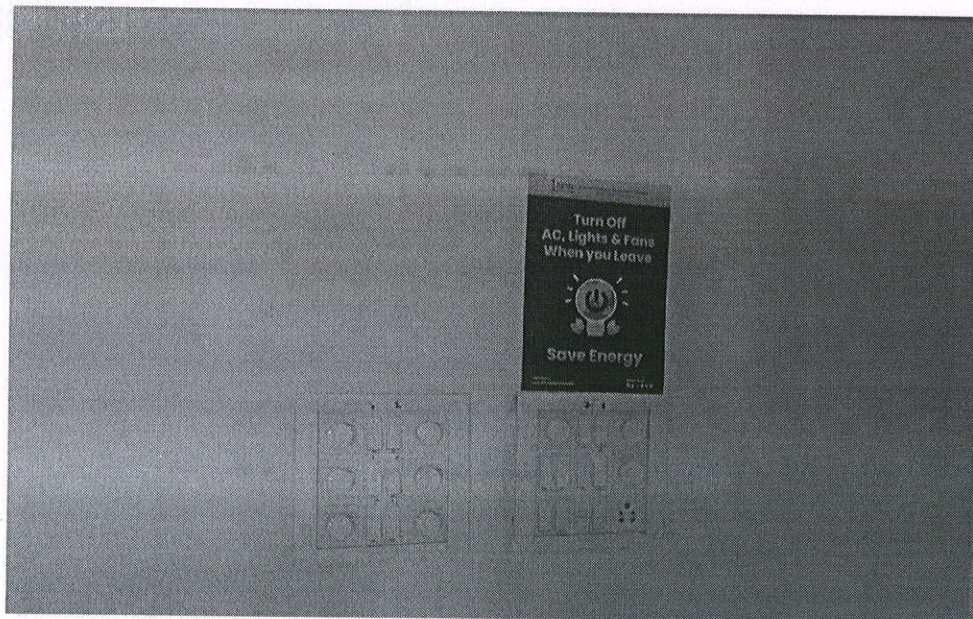

Photographic Evidences

Tree plantation around campus

Bore well sump

Signages for energy conservation in classrooms

Conclusion

This audit involved extensive consultation with all the campus team, interactions with key personnel on wide range of issues related to Environmental aspects. Overall, a large area of campus is for landscaping. The audit has identified few observations for making the campus premise more environmentally friendly. The recommendations are also mentioned with observations for university campus team to initiate actions.

The audit team opines that the overall site is maintained well from environmental perspective. There are no major observations but a recommendation is made in this report which would further strengthen the goal to achieve 100% environment friendly campus.

Executive Summary

Institute of Health Management Research, Bangalore (IIHMR, Bangalore) is a premier Institute for Hospital and Health management education in South India. IIHMR was previously known as the Indian Institute of Health Management Research. IIHMR Bangalore has a legacy extending over a decade imparting Health and Hospital management education, Training, and Research activities in South India. The campus is situated in Silicon Valley at Electronic City Phase -1 and is surrounded by organisations like Wipro, HP, Infosys, and many other leading IT and allied companies.

IIHMR Bangalore was founded in 2004 as the south campus of IIHMR Group of Institutions, offering flagship programmes in Hospital and Health Management. In the year 2010, IIHMR, Bangalore got approval from AICTE (All India Council for Technical Education), Ministry of HRD, Govt. of India to offer a two-year full-time PGDM (Post Graduate Diploma in Hospital and Health Management) programme with specialisations in Hospital Management, Health Management, Health Information Technology (HIT) Management and Pharmaceutical Management. The PGDM course has been designed and updated regularly by faculties and Healthcare Industry experts to match the Industry needs.

Students, after completing of this course, can look at lucrative career options and campus placements in Clinical Operations, Non-Clinical Operations, HR, Administration, Quality, Sales, Business Development, Health Finance, Patient Care, Customer Service, Telemedicine, Medical Tourism, etc.

Some of our Alumni work with companies such as Gleneagles Global, Apollo Hospital, Mission Hospital, NH, Columbia Asia, Nationwide clinic, Global Hospitals, Manipal Hospital, Sagar Hospital, Vikram Hospital, Fortis Hospital, Yashomati Hospital, Brook Field Hospital, Ramakrishna Hospital, Moolchand Hospital, Bhoruka Netralaya Hospital, Asian Heart Institute, Cloud Nine Hospital, Sakra, Healthcare At Home, Telerad RxDx, Cadabams Hospital, etc.

List of courses offered by the institute:

- PGDM – Hospital and Health Management

Electricity is supplied by Bangalore Electricity Supply Company at 11KV and is stepped down to 415V using a transformer of rating 250KVA.

The energy audit included detailed data collection, analysis of data and identification of specific energy saving proposals.

Chapter 01: Introduction

M/S IIHMR, Bangalore evinced interest in availing the services of Elion Technologies and Consulting Pvt Ltd for conducting energy audit of their premise.

Elion Technologies and Consulting Pvt Ltd team conducted the Detail Energy audit on 10th October 2022.

This report is on the energy audit carried out M/S IIHMR, Bangalore. The detailed energy audit comprised of the following activities:

- Data collection of power consuming equipment's.
- A brief session on energy management was conducted to seek more inputs from the personnel engaged in operation and maintenance of electro-mechanical services.
- Analysis of collected data.
- Discussion with the officials on the identified proposals.
- Discussion and reporting of the findings of energy audit with the Engineers and management staff.

All the identified energy savings proposals have been discussed with the executives concerned before finalizing the projects.

The contents of the report are based solely on the data provided by IIHMR, Bangalore officials during the energy audit.

The management should implement the suggestions made in the report after verifying requisite safety aspects.

Methodology for Energy Audit:

The following is a list of general procedure and information undertaken during the energy audit:

- General information of the site.
- Baseline energy description.

Usha Manjunath

Director

- Past energy consumption bills which include electricity bills.
- On site data collection
- Energy analysis of different sectors.
- Recommendation of energy conservation measures.

The primary goal of the energy audit was to identify sources and areas of potential energy savings and cost saving throughout the campus by measures of optimization, replacement, retrofitting, and on the other hand, to also provide recommendations on operational and maintenance practices improvements.

Usha Manginath

Chapter 02: Energy Consumption Details

Following table below show the electrical utilities installed in the campus:

Rating of Transformer (in KVA)	250KVA
Year of installation of the Transformer	2009
Rating of DG Set (in KVA)	82.5KVA
Rating of Capacitor Bank (if present)	65KVAR
Capacity of Solar Power Plant (if installed)	1KVA

The main areas of energy consumption as observed during the audit are as follows:

- Air Conditioners
- Lighting
- Fans
- Motors & Pumps
- Desktops & Printers
- Solar streetlight

The main sources of energy to meet the required consumptions are as follows:

- Electricity supply from Power Distribution Company.
- Backup power from DG Set.
- Solar panel

Chapter 03: Lighting System

Following is the summary of lights installed at various locations of the college campus:

Type of lights	Rating (W)	Quantity	Number of Hours being turned on
LED Lights	5	400	3-5
	9		3-5
	36		3-5

Observation:

- Most of the lights used in the campus are LEDs. Campus has replaced all the conventional lights with energy efficient LED lights which is a good practice.
- Sticker to "SWITCH OFF LIGHT" and "SAVE ENERGY" are displayed in the rooms.

LED panel lights

Recommendation:

- Regular cleaning of light fixtures to be done to get maximum lux level.

Chapter 04: Air Conditioning

Split, Ductable/VRV and Cassette Air Conditioners are used in facility for air conditioning. Following is the list of ACs present in the campus:

Type of AC (Windows/Split/Package and Location)	Capacity in Ton	Quantity	Set Temperature	Running Hours	Whether AC performance is satisfactory (Yes/No)
Split Air Conditioners	1.5	20	20-22	4-5	Yes
Cassette Air Conditioners	3	4	20-22	4-5	Yes
VRV	4.5	4	20-22	4-5	Yes

Observation:

- The use of AC is minimal due to the cool climate of Bangalore.
- All air conditioners are found to be functioning properly and well maintained.
- Regular servicing and maintenance of air conditioners are done with proper cleaning.

Recommendation:

- All doors to be kept closed while using the air conditioners and regular annual service of AC's should be carried out.
- Set Temperature of Air Conditioner shall be maintained at 26°C.
- A reduction in 1°C set point temperature, the energy cost comes down by 5%. By carefully selecting the seasonal temperature in different areas as per requirement considerable saving on account of power consumption can be achieved.
- Whenever Air Conditioners are replaced in future, BEE 5 star rated air conditioners shall be considered which are energy efficient.
- Installation of AC energy savers can be considered for air conditioners having longer running hours.

Chapter 05: Pumps and Motors

The details of the pumps and motors used in the campus are given below:

Name of Pump and make	Running Hours	Rated Capacity in HP
Submersible Pump - Kirloskar	3-4	10
Submersible Pump - Kirloskar	3-4	5
Waste water pump - Texmo	1-2	3
Waste water pump - Texmo	1-2	3

Observation:

All pumps and motors are functioning properly and well maintained.

Recommendation:

Proper maintenance and upkeep of pumps and motors to be done.

Conclusion

The energy audit performed at IIMR, Bangalore showcased commendable efforts towards sustainability within the college. The use of solar light and replacement of conventional lights with energy-efficient LED alternatives marks a significant stride in reducing energy consumption.

Despite these advancements, there remains untapped potential for further enhancing energy efficiency. The audit report likely contains specific recommendations aimed at maximizing sustainability efforts. Implementing these suggestions could significantly bolster the college's energy-saving initiatives, continuing the positive trajectory towards a more environmentally conscious campus.

Overview of Institute

Institute of Health Management Research, Bangalore (IIHMR, Bangalore) is a premier Institute for Hospital and Health management education in South India. IIHMR was previously known as the Indian Institute of Health Management Research. IIHMR Bangalore has a legacy extending over a decade imparting Health and Hospital management education, Training, and Research activities in South India. The campus is situated in Silicon Valley at Electronic City Phase -1 and is surrounded by organisations like Wipro, HP, Infosys, and many other leading IT and allied companies.

IIHMR Bangalore was founded in 2004 as the south campus of IIHMR Group of Institutions, offering flagship programmes in Hospital and Health Management. In the year 2010, IIHMR, Bangalore got approval from AICTE (All India Council for Technical Education), Ministry of HRD, Govt. of India to offer a two-year full-time PGDM (Post Graduate Diploma in Hospital and Health Management) programme with specialisations in Hospital Management, Health Management, Health Information Technology (HIT) Management and Pharmaceutical Management. The PGDM course has been designed and updated regularly by faculties and Healthcare Industry experts to match the Industry needs.

Students, after completing of this course, can look at lucrative career options and campus placements in Clinical Operations, Non-Clinical Operations, HR, Administration, Quality, Sales, Business Development, Health Finance, Patient Care, Customer Service, Telemedicine, Medical Tourism, etc.

Some of our Alumni work with companies such as Gleneagles Global, Apollo Hospital, Mission Hospital, NH, Columbia Asia, Nationwide clinic, Global Hospitals, Manipal Hospital, Sagar Hospital, Vikram Hospital, Fortis Hospital, Yashomati Hospital, Brook Field Hospital, Ramakrishna Hospital, Moolchand Hospital, Bhoruka Netralaya Hospital, Asian Heart Institute, Cloud Nine Hospital, Sakra, Healthcare at Home, Telerad RxDx, Cadabams Hospital, etc.

List of courses offered by the institute:

- PGDM – Hospital and Health Management

Introduction

Green Audit is a process of systematic identification, quantification, recording, reporting and analysis of components of environmental diversity of institute. It aims to analyse environmental practices within and outside of the concerned place, which will have an impact on the eco-friendly atmosphere. Green audit is a valuable means for a college to determine how and where they are using the most energy or water or other resources; the college can then consider how to implement changes and make savings. It can create health consciousness and promote environmental awareness, values and ethics. It provides staff and students' better understanding of green impact on campus. If self-enquiry is a natural and necessary outgrowth of a quality education, it could also be stated that institutional self-enquiry is a natural and necessary outgrowth of a quality educational institution. Thus it is imperative that the college evaluate its own contributions toward a sustainable future. As environmental sustainability is becoming an increasingly important issue for the nation, the role of higher educational institutions in relation to environmental sustainability is more prevalent.

The rapid urbanization and economic development at local, regional and global level has led to several environmental and ecological crises. On this background it becomes essential to adopt the system of the Green Campus for the institutes which will lead to sustainable development and at the same time reduce a sizable amount of atmospheric CO₂ from the environment. The National Assessment and Accreditation Council, New Delhi (NAAC) has made it mandatory that all Higher Educational Institutions should submit an annual Green Audit Report. Moreover, it is part of Corporate Social Responsibility of the Higher Educational Institutions to ensure that they contribute towards the reduction of global warming through carbon footprint reduction measures.

Advantages of Green Audit:

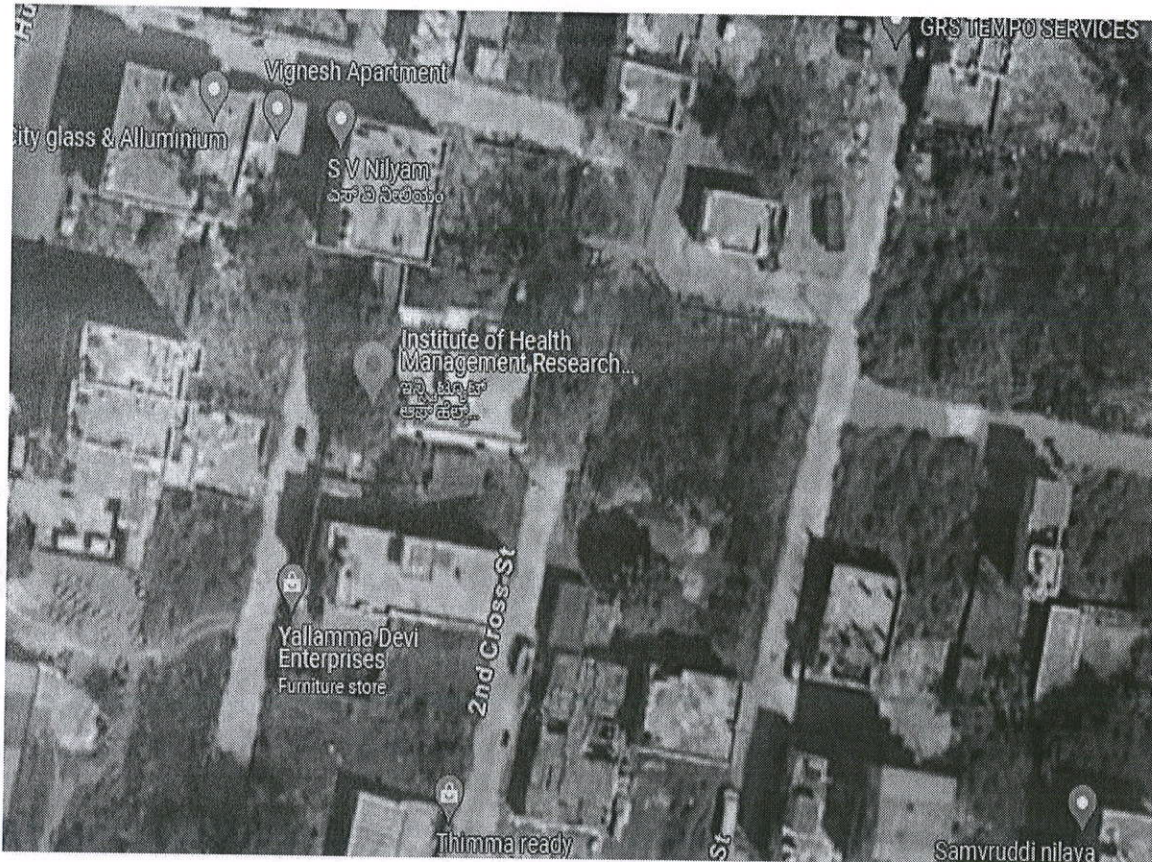

Green Audit is assigned to the Criteria 7 of NAAC, National Assessment and Accreditation Council which is a self-governing organization of India that declares the institutions as Grade A, Grade B or Grade C according to the scores assigned at the time of accreditation. Some main advantages of green Audit are:

- It helps to shield the environment.
- Minimizing waste and managing the cost.
- Authenticate conformity with the implemented laws.
- Minimizing energy consumption and focus on green and clean energy.
- Ambient Environmental Condition.
- Awareness and Training on Sustainability for Students.
- Awareness of environmental guidelines and duties.

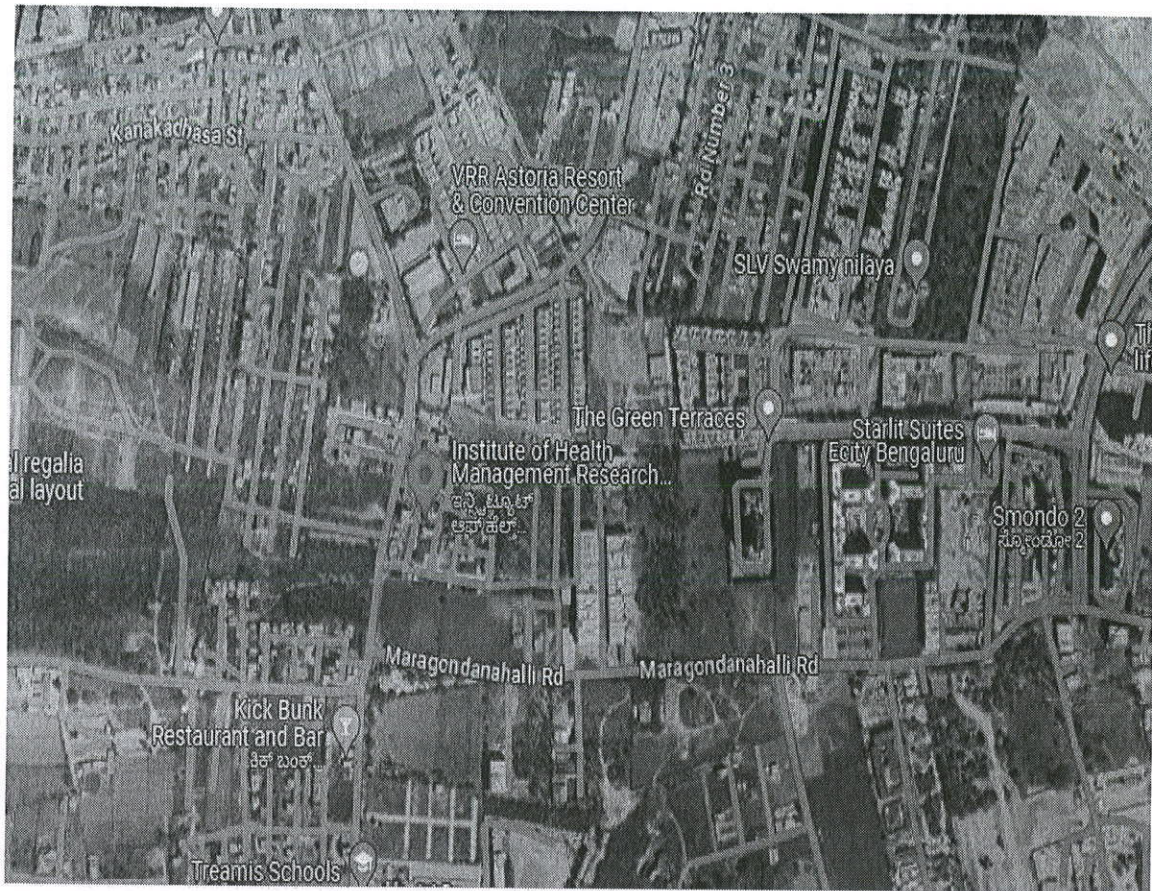

Environment Setting

The land use around the campus is mix of commercial and residential use. Schools, Restaurants, Commercial complexes, restaurants, Industries etc. are present around the campus.

IIHMR Campus

Location of IIHMR Campus

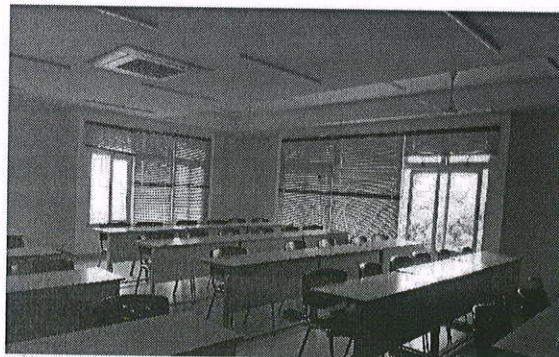

Green Audit

For Green Audit following 13 major areas (including their subsections) were covered and compliance/ initiatives under these areas were verified/ validated.

- a) Good Daylight Design and Ventilation
- b) Water Efficiency
- c) Wastewater Management
- d) Indoor Air Quality
- e) Energy Efficiency
- f) On-site Energy Generation
- g) Temperature and Acoustic Control
- h) Paper Waste Management
- i) E-Waste Management
- j) Canteen and Solid Waste Management
- k) Universal Access and Efficient Operation and Maintenance of Building
- l) Green Belt
- m) Green Programs (Green initiatives)

3.1 Good Daylight Design and Ventilation

- a) Corridors are wide with good ceiling height. All the corridors receive good daylight.
- b) Classrooms and Library have large windows. Adequate daylight is received through the windows during daytime.
- c) Classroom walls, corridors and other areas are white-washed, this enhances the daylight received.
- d) Curtains are provided on some of the windows to avoid glare.
- e) Stair cases receive daylight through windows provided at various levels.

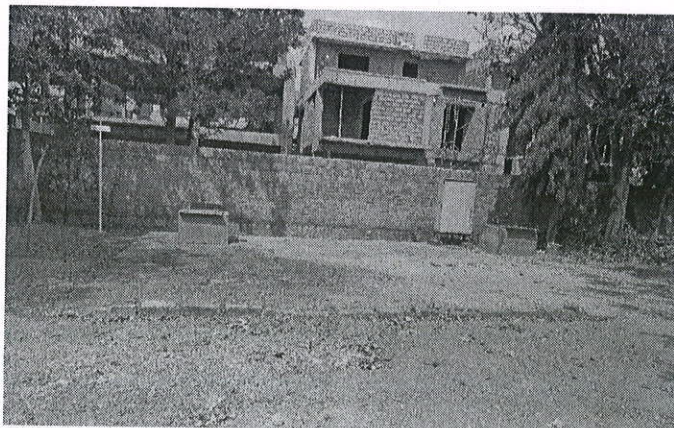

Good Daylight in Classrooms & Labs

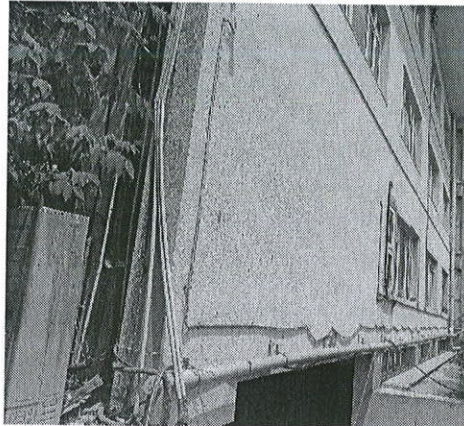

Daylight in corridors

3.2 Water Efficiency:

- a) Groundwater is the source of water supply in the campus.
- b) Groundwater is stored in an underground tank of capacity 25KL and is then pumped to two overhead tanks of capacity 5KL each.
- c) RO filter with water dispensers is placed at every floor.
- d) Normally mops are used for floor cleaning and hose is used for cleaning once a week.
- e) Sensor based water taps are provided in the washrooms.
- f) Dual flushing system is provided in the washrooms.
- g) Signages are provided in washrooms emphasizing water conservation.
- h) Water from air conditioning unit and reject water from water purifiers is used for watering plants and trees in the garden.
- i) Rainwater harvesting system is available and rainwater is stored in a tank and reused for watering garden.

Underground Sump

Rainwater harvesting pipelines

3.3 Wastewater Management:

- a) Water treatment plants or water recycling plant is not available in the campus.

3.4 Indoor Air Quality;

Indoor Air Quality (IAQ) refers to the air quality within and around buildings and structures, as it relates to the health and comfort of building occupants. Some common indoor pollutant are listed as below:

- Molds and other allergens – This may arise from water seeping into the building envelope or skin, plumbing leaks, condensation due to improper ventilation, or from ground moisture penetrating a building part.
- Carbon monoxide – Sources of carbon monoxide are incomplete combustion of fossil fuels.
- Volatile organic compounds (VOCs) – VOCs are emitted by paints and lacquers, paint strippers, pesticides, office equipment such as copiers and printers, correction fluids and carbonless copy paper, graphics and craft materials including glues and adhesives, permanent markers, and photographic solutions etc.
- Carbon dioxide – Due to human respiration
- Particulate matter – Due to construction and maintenance activities

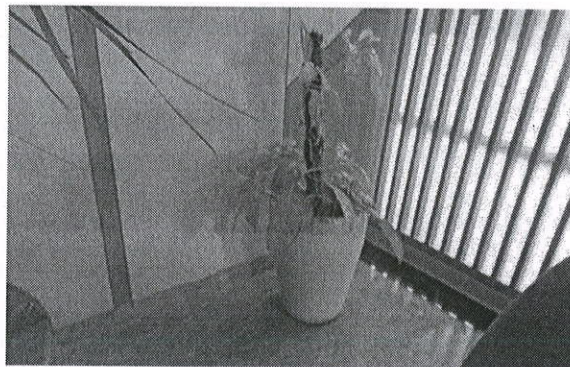

Major observations under indoor air quality are as below:

- a) Casette, Ductable and Split Air Conditioners are used in the classrooms, labs, seminar hall, offices etc.
- b) Indoor plants are present in the campus. Indoor plants can be plotted not only for the aesthetic appearance but also for health benefits. Refer Annexure 1 for

details.

- c) Indoor air quality tests are not carried. It is recommended to get air quality tested once a year.
- d) Exhaust fans are provided in washrooms to dissipate heat and odour.

Indoor potted plants

3.5 Energy Efficiency:

Power is supplied by Bangalore Electricity Supply Company. The major electricity consuming equipment installed in the campus are Air Conditioners, Water Coolers, Lighting, Desktop, Printers etc.

It was observed that:

- a) LED lights are installed in the entire campus.
- b) Campus has air conditioners which are in good working condition.

3.6 On Site Energy Generation (usage of LPG/ Natural Gas):

- LPG is used for cooking in canteen/pantry.
- Back Up diesel generator of capacity 82.5KVA is available in the campus.

DG Set and stack

3.7 Temperature and Acoustic Control

- White washed rooms & corridors and white/off-white flooring improve the lighting conditions.
- The campus has done tree plantation all around the boundary walls.
- There is no noise pollution inside and around the campus.

Tree plantation

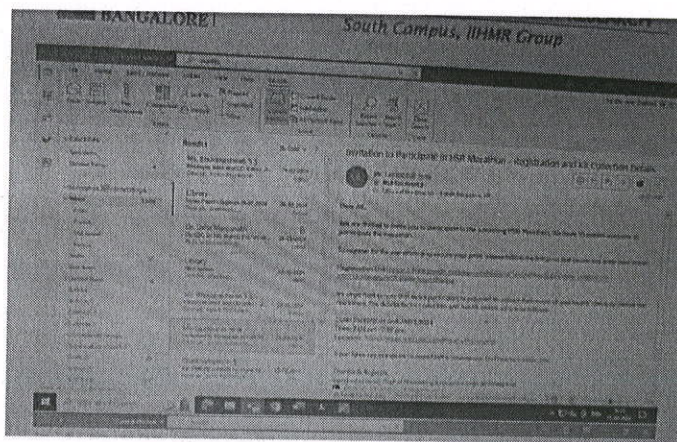

3.8 Paper Waste Management:

Implementation of an e-Learning Management System (LMS) has minimized paper consumption, making a positive impact on environmental conservation. All faculty, staff, and students are provided with laptops or desktops, and the entire campus, including the hostels, is equipped with Wi-Fi connectivity. All communication on campus is conducted electronically.

The College has taken steps to minimize and avoid paper usage. It was observed that:

- Prints and photocopies are taken on both sides of the pages to avoid excess paper usage. Rather than photocopying, digitalization (scanning) is practiced.
- Internal notices and communications are through E-mail/Whatsapp.
- Faculty and administration staff use old papers and envelopes for internal usages as rough work, file markers, page separators etc.

Internal communications through Mail

3.9 E-Waste Management:

- E-waste is disposed, after approval from internal PURGE committee, by certified vendor.

3.10 Solid Waste Management:

It was observed that:

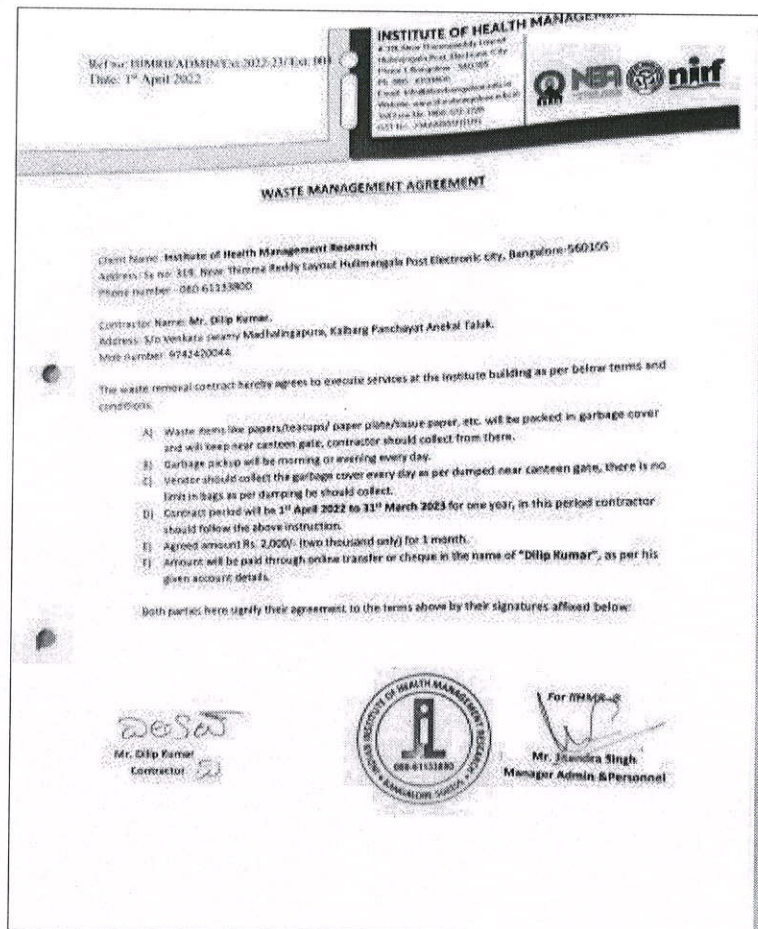

- Wet waste and dry waste segregation is practiced in the premises. Separate bins are provided for wet biodegradable and dry recyclable waste.
- Compost pit is also available for composting of dry waste such as leaves, flowers etc.
- The daily waste is collected and disposed off through contractual Panchayat Garbage vendors.

d) Biodegradable waste is mainly generated in canteen.

Different Dustbins

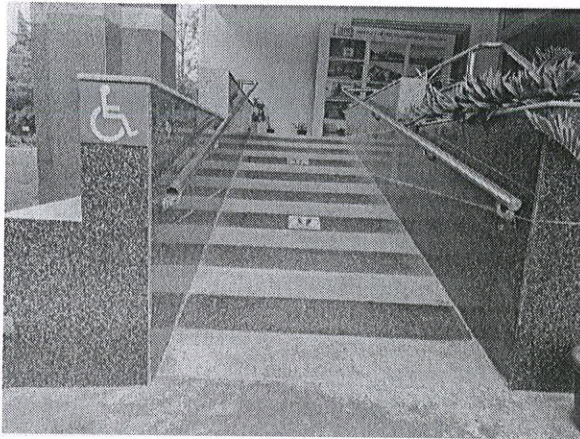

Waste Disposal Contract

3.11 Universal Access and Efficient Operation and Maintenance of Building:

It was observed that:

- a) College is easily accessible. Staircase and ramps are provided for staff and students.
- b) Since the access and staircases are wide and uncluttered, it is possible to have a safe evacuation during emergency.
- c) Fire extinguishers and Fire hose reels are provided for emergency. They are inspected and serviced by fire protection Service Company annually.
- d) Directional exit signages and floor markings are present on every floor of the campus.
- e) Regular Fire Safety Trainings is given to staff and students on annual basis

Ramps and stairs provided

3.12 Green belt/ Landscaping:

- a) Large trees and plants are planted in the premises. Plantation also helps maintaining lower temperatures of the area.

3.13 Green Initiatives:

College regularly celebrating important days such as Environment Day, Yoga Day, Earth Day etc. as well as other cultural programs.

Green initiatives

Cleanliness Drives

Recommendations/Suggestions

For Improving Energy Consumption:

- a) Every classroom and lab with central switch board can have a diagram linking location of a tube light, fan etc. with corresponding switch. This will ensure that correct fitting is switched on/ off and can save time & unnecessary operation.
- b) Usage of light reflectors is recommended as the reflectors can spread light to relatively large areas.
- c) If possible, computers should be switched off from main power connections.
- d) Keeping the blinds open to utilize natural light and reduce energy consumption when people are not around.
- e) Raise awareness:
 - Encourage students to help in monitoring energy consumption & implement corrective actions
 - Integrate energy education into classroom learning.

Water Conservation:

- a) Provide information on water usage and savings to students/ staff through notices, screen savers in computer labs.
- b) Dry sweep or use a sponge broom when possible, instead of using a hose to clean floors, sidewalks, or other hard surfaces.
- c) Minimize/ reduce water usage by installing water saving faucets such as pressmatic taps, tap aerators etc.

Paper and other Solid Waste Reduction:

- a) Inventories of all solid waste generated in the premises must be maintained.
- b) Enhance recycling. This can be done by creating a group where students can recycle books, personal clothes and other material to needy students. This can be an initiative under green program.
- c) Standard Operating Procedures (SOP) for Solid and E-waste management and for recycling of waste should be prepared & practiced. The SOP's may include collection, segregation and reuse of different types of wastes, if any (This will help in safe disposal of waste to recycle agencies).
- d) More training as well as awareness programs should be organized on segregation of biodegradable waste and recycling of waste. Efforts should be taken to inform students about recycling options and signs should be posted on appropriate bins indicating what could be dumped in each bin.
- e) Paper usage shall be monitored to understand the impact of digitization in the facility.

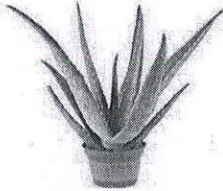

Others:

- a) Environmental advisory committee could be formed. The discussions/ information sharing among different departments can generate lot of ideas and awareness on green issues.
- b) Maintain minutes of meetings of environmental committees; evaluate the effectiveness of various environmental programs conducted by the institutes. Set annual targets for Green Initiatives & monitor them closely. Create 'Green Champions'.
- c) Since each student uses computer lab, the screen savers can be set up for creating environmental awareness. (Ergonomics, water conservation etc.). Wallpapers informing students about environment conservation can be created.

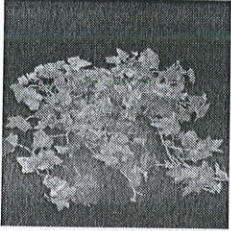

Annexure 1 – Indoor Gardening Details

Indoor plants are commonly used for their aesthetics benefits but they also have vital role reducing airborne pollution. The right choice of plants can be an excellent way of improving indoor air quality and general health. Local landscape contractor can be contacted for supply and rotation of these plants.

Plants	VOC it removes	Indoor source of VOC's	Plant care
 Aloe Vera	Formaldehyde, Trichloroethylene and Benzene	Chemical based cleaners and paints	Easy to grow with enough sunlight
 Bamboo Plant	Formaldehyde, Trichloroethylene and Benzene	Paints, Plastics, Wood products etc.	Thrives under low light conditions as well as easy to maintain
 Chinese Evergreen	Benzene	Paints	Low maintenance plant that prefers low light conditions.

 English Ivy	Formaldehyde, Benzene, Air borne fecal matter particles	Wood, Paper products, Air borne fecal – matter particles from pests	Easy to maintain
 Janet Craig	Formaldehyde, Benzene and Trichloroethylene	Paints, Plastics, Wood products etc.	Medium to low light tolerant plant. Requires little water for growth.
 Golden Pothos or Devils Ivy	Formaldehyde, Cleanses air	Exhaust fumes, carpeting materials, panelling and furniture products made with particle board	Extremely easy to maintain under low to bright light conditions. Fast growing and grows well under Fluorescent light.
 Mass Cane	Formaldehyde, benzene and trichloroethylene	Paints, Plastics, Wood products etc.	Medium to low light tolerant plant. Requires little water for growth.

Esha Nayak
 Director

 Snake plant	Formaldehyde and trichloroethylene	cooking fuels, wood products, facial tissues, personal care products and waxed papers	Drought resistant and Tolerates a variety Of light conditions. Hard to damage or kill.
 Peace Lily	Formaldehyde, benzene and trichloroethylene	Paints, Plastics, Wood products etc.	Relatively easy to maintain. Survives in low light conditions.
 Red-edged Dracaena	Formaldehyde and trichloroethylene	cooking fuels, wood products, facial tissues, personal care products and waxed papers	Drought resistant and Tolerates a variety of light conditions. Hard to damage or kill.
 Spider Plant	Formaldehyde, benzene, carbon monoxide and xylene	cooking fuels, wood products, Printing	Easy to maintain under medium to bright light condition.

	Purifies indoor air	-	Easy to maintain
Parlor Palm

Activity Report	
Academic Year	2019-20
Name of the Activity	Plantation Drive
Date of the Activity	10-10-2019
Organized By	IIHMR B
Objective	<ul style="list-style-type: none">• To increase the green cover on campus and reduce the carbon footprint.• To educate students about the importance of trees and biodiversity.
Brief Report	IIHMR B organized a successful plantation drive aimed at enhancing the campus greenery, promoting environmental awareness among students, and contributing to the global effort against climate change. This initiative was a collaborative effort involving students and faculty.
Outcome	This initiative not only beautified the campus but also instilled a sense of environmental stewardship in the college community. Moving forward, IIHMR B College aims to continue its green initiatives, contributing to a healthier and more sustainable planet.

<p>(Geotag) Photograph-2</p>	
<p>Description (min 250 to max 800 words)*</p>	<p>The session titled "Water Contamination and Conservation" focused on the pressing issues related to water quality and the sustainable management of water resources.</p> <p>The session detailed various sources of water contamination, including industrial discharge, agricultural runoff, sewage, and chemical spills. These pollutants can introduce harmful substances such as</p>

	<p>heavy metals, pesticides, pathogens, and plastic microfibers into water bodies. Contaminated water poses significant health risks, leading to diseases such as cholera, dysentery, and lead poisoning. It also adversely affects aquatic ecosystems, causing the death of marine life and disruption of ecological balance. Implementing water-saving techniques in agriculture, industry, and households can significantly reduce water wastage. Methods such as drip irrigation, low-flow fixtures, and recycling wastewater were discussed. Mr Chethan Renukaiah, Fluorosist, dept HFW, GoK took the session.</p>
<p>Attendance Sheet*</p>	<p>Attached at the end of Report</p>
<p>Report Submitted by <i>(write faculty coordinator name)</i></p>	<p>Dr Sarala</p>

Description (min 250 to max 800 words)*

Students actively participated in tree planting activities, where they planted saplings in designated areas on campus. Guided by environmental experts, students learned about the importance of trees in mitigating climate change, improving air quality, and enhancing biodiversity. Prior to the plantation drive, educational sessions were conducted to raise awareness about the significance of tree planting and environmental stewardship. Students gained insights into the benefits of trees for the environment, wildlife, and human well-being. The program emphasized the broader impact of tree planting on environmental conservation and sustainability. Students were encouraged to reflect on their individual and collective roles in

Description (min 250 to max 800 words)*

IIHMR Bangalore has organized a sensitization workshop on ‘SOLID WASTE MANAGEMENT’ at the campus on 2nd August 2022. Mr. Vasuki Iyengar – Consultant Waste Management, Bangalore conducted the session. The session was well appreciated by the staff and students. Mr. Iyengar explained how to Manage Human and Environment Health by improving Soil Health. The session covered key aspects on:

- Soil health to Human Health
- Effective Segregation using 2bin1 bag
- Basics of Aerobic Composting - Five things important for successful composting at home
- Demo on Aerobic composting
- Feed the soil, in turn feed the trees and plants with compost, liquid fertilizers made
- 4R - Refuse, Reduce, Reuse, Recycle - Say no to

	<p>single use disposables, carry your own cutlery, clean and dry recyclables, store recyclables for a month, Drop off at dry waste collection center. Considering the nature and components of waste generated by households and business places, the waste reduction, reuse, recycling and composting processes would be more suitable in managing the challenge.</p>
<p>Attendance Sheet*</p>	<p>Attached at the end of Report</p>

Description (min 250 to max 800 words)*

The campaign began with educational sessions and awareness workshops. Participants learned about the impact of sanitation on public health, environmental sustainability, and community well-being, inspiring them to take proactive measures to improve cleanliness and sanitation standards.

In addition to workshops, the Swachh Bharat Campaign included hands-on activities such as cleanliness drives, waste management initiatives, and community clean-up events. Volunteers and participants worked together to remove litter, debris, and waste from public spaces, streets, and water bodies, contributing to the beautification and cleanliness of the local environment.

Furthermore, the campaign incorporated behavior change communication strategies to encourage sustainable sanitation practices and promote the use of clean and safe sanitation facilities. Informational materials, posters, and social media campaigns were utilized to disseminate key messages and motivate individuals to adopt hygienic practices in their daily lives.

Additionally, the Swachh Bharat Campaign collaborated with local authorities, civic organizations, and community leaders to implement infrastructure improvements and sanitation facilities enhancements. These efforts aimed to address systemic challenges related to

<p>Description</p>	<p>The program organized to disseminate information about the health risks associated with tobacco use, including smoking and smokeless forms of tobacco.</p> <p>Recognizing the importance of preventing tobacco initiation among youth, the program focused on engaging adolescents and young adults through school-based interventions, peer education programs, and youth-led advocacy initiatives. These efforts aimed to empower young people to reject tobacco use and become advocates for tobacco-free environments.</p>

Description (min 250 to max 800 words)*

Through collaborative efforts involving students, faculty, and staff, the program sought to enhance biodiversity, mitigate climate change, and foster a culture of environmental stewardship.

The program kicked off with a series of educational workshops and seminars on the importance of trees, the benefits of afforestation, and the role of plants in mitigating climate change. Expert speakers and environmentalists shared insights into local ecosystems, native plant species, and sustainable gardening practices, inspiring participants to take action to protect the environment.

In addition to workshops, the Plantation Drive included hands-on activities such as tree planting events, community clean-up drives, and habitat restoration projects. These activities provided

For Institute of Health Management Research Bangalore

	<p>participants with practical opportunities to contribute directly to environmental conservation efforts while fostering a sense of community engagement and teamwork.</p> <p>Furthermore, the program incorporated tree adoption initiatives and seed distribution programs to encourage individuals to take ownership of tree planting and care. By providing resources and support, the program empowered participants to establish green spaces within the campus and surrounding areas, enhancing the aesthetic appeal and ecological value of the environment.</p> <p>Additionally, the Plantation Drive collaborated with local environmental organizations and government agencies to leverage resources and expertise for larger-scale tree planting projects and ecosystem restoration efforts. By forging partnerships and building alliances, the program maximized its impact and promoted collaboration towards common environmental goals.</p>

Description (min 250 to max 800 words)*

Wildlife conservation is a crucial practice aimed at protecting endangered species and preserving biodiversity. As human activities increasingly impact natural habitats, conservation efforts are essential to maintain ecological balance and ensure the survival of various species. Participants engaged in hands-on activities to learn about reforestation and wetland rehabilitation techniques. Discussed the importance of restoring natural habitats to support wildlife populations.

Description (min 250 to max 800 words)*

The campaign began with educational sessions and awareness workshops. Participants learned about the impact of sanitation on public health, environmental sustainability, and community well-being, inspiring them to take proactive measures to improve cleanliness and sanitation standards.

In addition to workshops, the Swachh Bharat Campaign included hands-on activities such as cleanliness drives, waste management initiatives, and community clean-up events. Volunteers and participants worked together to remove litter, debris, and waste from public spaces, streets, and water bodies, contributing to the beautification and cleanliness of the local environment.

	<p>Furthermore, the campaign incorporated behavior change communication strategies to encourage sustainable sanitation practices and promote the use of clean and safe sanitation facilities. Informational materials, posters, and social media campaigns were utilized to disseminate key messages and motivate individuals to adopt hygienic practices in their daily lives.</p> <p>Additionally, the Swachh Bharat Campaign collaborated with local authorities, civic organizations, and community leaders to implement infrastructure improvements and sanitation facilities enhancements. These efforts aimed to address systemic challenges related to sanitation access and promote the development of sustainable sanitation infrastructure.</p>

Description (min 250 to max 800 words)*

This event commemorated the birth anniversary of Sardar Vallabhbhai Patel, the Iron Man of India, and celebrated his contributions to the unity and integrity of the nation.

The event began with an inspirational opening ceremony, featuring speeches, cultural performances, and tributes honoring the legacy of Sardar Patel and his vision of a united India. Participants gathered with enthusiasm and excitement, dressed in patriotic attire and carrying banners and flags representing the diversity and strength of the nation.

Following the opening ceremony, the Run for Unity kicked off with a spirited run or walk, traversing a designated route through the college campus and surrounding areas. Participants of all ages and abilities came together, running side by side, to symbolize the spirit of unity and harmony that defines the nation.

For Institute of Health Management Research, Bangalore

Usha Mangrulkar

	<p>Throughout the run, volunteers and organizers provided support and encouragement, distributing water, refreshments, and motivational cheers to keep participants energized and motivated. Along the route, checkpoints showcased educational displays and exhibits highlighting key moments from Sardar Patel's life and contributions to the nation-building process.</p> <p>Upon completing the run, participants gathered for a closing ceremony, where certificates of participation and tokens of appreciation were distributed to acknowledge their commitment and dedication to the cause of unity. The event concluded with a collective pledge to uphold the values of unity, diversity, and inclusivity in all aspects of life.</p>

INTERNAL CIRCULAR

Aim – The main aim of establishing the Green Club is to create Eco friendly environment at campus. It also aims to create awareness related to sustainable development and provide support to local community related to environmental issues.

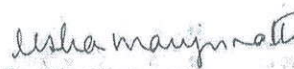

Objectives:

- To motivate the students to keep their surroundings green and clean by undertaking plantation of trees.
- To promote culture of conservation of water by minimizing the use of water.
- To maintain cleanliness in and around the campus.
- To educate students to create awareness and training among local community and sanitary workers.

Tenure of Club – Two Years – (21-10-2020 to 20-10-2022)

Name of Members -

Mr. Piyush Kumar – Chairperson
Mr. Satish Kumar Singh – Member Secretary
Mr. Gowthamgosh B – Member
Ms. Pallavi – Member
Ms. Samridhi Srivastava - Student Representative 2nd Year
Mr Chandan - Student Representative 1st Year
