Message from the President

It is with immense pride that I present the PGDM Batch 2024–26 of IIMR Bangalore—a cohort of dynamic and highly skilled graduates, prepared to take on leadership roles in hospitals, healthcare organisations, and allied industries. With a strong academic foundation, practical exposure, and a deep commitment to excellence, our students are well-equipped to address complex challenges and drive innovation in a rapidly evolving healthcare ecosystem.

Since its inception in 2004, IIMR Bangalore has emerged as a premier institution in healthcare management education, known for academic rigour, industry relevance, and global perspective. Our flagship PGDM in Hospital and Health Management, approved by AICTE, accredited by the NBA, and recognised as MBA-equivalent by AIU, continues to evolve in partnership with industry leaders and policy stakeholders. Building upon this legacy, we are also proud to offer the PGDM in Artificial Intelligence and Data Science (AI & DS)—a forward-looking program designed to equip professionals with analytical, technological, and managerial competencies essential for harnessing the power of data and digital transformation across healthcare and allied domains.

Our esteemed faculty, with their expertise in research, consultancy, and practice, create a rich academic environment that fosters problem-solving, adaptability, and innovation. Through the 3 months Summer Training Program, 3-4 months internships cum dissertation, and immersive industry engagement, our students gain hands-on exposure and develop a holistic understanding of healthcare systems and technology-driven solutions.

IIMR Bangalore takes pride in a strong network of over 1,000 alumni, who hold leadership positions globally in healthcare delivery, IT, health insurance, consulting, and public health. Their accomplishments reinforce the Institute's commitment to producing professionals who excel as leaders, entrepreneurs, and change agents.

In the wake of global transformations in healthcare and technology, the demand for qualified healthcare managers and data-driven decision-makers has never been greater. I am confident that the graduates of the 2024–26 batch, across both Hospital and Health Management and Artificial Intelligence & Data Science, will play a pivotal role in shaping the future of healthcare by improving access, quality, innovation, and patient outcomes.

I wholeheartedly congratulate this graduating batch and wish them continued success as they embark on their professional journeys. They will, undoubtedly, make a lasting impact on the healthcare sector and beyond.

Dr. S.D. Gupta - MD, PhD (Johns Hopkins, USA (FAMS))
President, Management Board, IIMR

Director's Message

At IIHMR Bangalore, we believe tomorrow's healthcare leaders don't just adapt to change, they create it. I'm delighted to share our Placement Brochure for the PGDM Batch 2024–26.

Our flagship PGDM in Hospital & Health Management, AICTE-approved, NBA-accredited, and recognized as an MBA-equivalent by AIU, has a proud legacy of graduates making a real difference across hospitals, consulting, IT, insurance, and public health.

This year, we're thrilled to introduce the PGDM in Artificial Intelligence & Data Science. By blending healthcare expertise with cutting-edge data and AI skills, we're equipping students to tackle tomorrow's toughest challenges and drive innovation that truly matters.

What makes our students stand out? They pair deep academic knowledge with hands-on experience:

- Immersive summer trainings and internships
- Real-world, industry-sponsored projects
- Dissertation-based applied research
- Cross-functional team challenges

This unique mix ensures they don't just learn concepts; they bring ideas to life.

The Class of 2024–26 embodies creativity, curiosity, and courage. We invite our industry partners to connect with these talented graduates and collaborate on shaping the future of healthcare and technology.

Dr. Usha Manjunath, PhD
Director – IIHMR, Bangalore

Dean's Message

I am delighted to present the Placement Brochure for the PGDM Batch 2024–26 of the Institute of Health Management Research (IIHMR), Bangalore. As a premier institution dedicated to healthcare management education, research, consultancy, and training, our commitment is to nurture competent professionals who combine managerial skills with sectoral expertise to strengthen healthcare delivery in India and beyond.

The current batch represents a diverse mix of disciplines, from Health Sciences, Pharmacy, and Dentistry to Engineering, Management, and Commerce, fostering cross-learning and multidisciplinary problem-solving in healthcare. This diversity enriches the classroom and equips students with multiple perspectives to address complex challenges in the sector.

At IIHMR Bangalore, we emphasize experiential and application-oriented learning. Initiatives such as the Summer Training Program (STP), Internship & Dissertation, and strong industry collaborations ensure that students develop both practical exposure and contextual understanding. This equips them with the agility to adapt, innovate, and contribute meaningfully to strengthening healthcare systems.

The three-month Summer Training Program (STP), undertaken at the end of the first year, offered students deep industry immersion, enhanced their managerial acumen, and prepared them to address sector-specific challenges. I am pleased that our students had the opportunity to work with reputed hospitals, pharmaceutical companies, health-tech startups, consulting firms, and government bodies such as the Health and Family Welfare Department. Some of the leading organizations include Apollo Hospitals, Aster DM, Fortis Healthcare, Narayana Health, Max Healthcare, MGM Hospital, Father Muller Hospital, Kauvery Hospital, Zota Health, Tata 1MG, Dr. Reddy's Laboratories, Microlabs, MSN Laboratories, Syngene International, and AXONE Health, among others.

This strong foundation—backed by diverse academic origins and prestigious industry exposure—ensures that our graduates emerge as some of the most sought-after young leaders in healthcare management. As we continue to grow, our vision remains steadfast: to become a globally recognised institution in healthcare management and allied disciplines, producing professionals who not only excel in their careers but also create meaningful impact in the healthcare ecosystem. I am confident that the Batch of 2024–26 will uphold this legacy of excellence in their professional journeys.

Dean – Academics & Students Affairs

Dean – Research & Publications

IIHMR, Bangalore

Alumni Endorsement

Dr Ram Milan Shukla

Executive Director - Healthcare, NGN International

My two years at IIHMR Bangalore were a truly enriching experience that prepared me well for the professional world. The program went far beyond classroom learning, with a perfect blend of field projects, case studies, industry interactions, and research-driven activities that helped me build both practical skills and strong business perspectives. What I value most is how the institute bridges academics with real-world application, ensuring students are industry-ready from day one. The exposure, mentorship, and collaborative environment not only enhanced my learning but also shaped me into a well-rounded professional, something I continue to carry forward in my career.

Dr Shruti Sahasrabudhe

Research Officer and Project Lead, Symbiosis International University

IIHMR Bangalore transformed my outlook, helping me shift from clinician to healthcare manager through a blend of practical exposure and strong theoretical foundation. Specializing in Public Health with faculty guidance became a turning point in my career. The institute's supportive environment and enriching experiences shaped my professional journey and personal growth. Beyond academics, IIHMR provided lifelong friendships and professional relationships that continue to inspire and support me. The institute has profoundly influenced both my career trajectory and personal network, equipping me to excel in diverse healthcare roles while nurturing lasting connections.

Mr Mohan Seervi

Marketing Specialist, Remidio Innovative Solutions Pvt Ltd

IIHMR Bangalore played a pivotal role in grooming me and giving me early exposure through a one-month program at Narayana Health City, which helped me understand the healthcare industry closely. This foundation enabled my transition into the health-tech space with Axio Biosolutions Pvt Ltd, pioneers in advanced haemostats, where I grew from backend support to leading marketing and heading the India vertical. I have since moved to Remidio, an innovative startup in AI-powered eye care, and each step of this journey reflects the strong base IIHMR provided in shaping my career.

Mr Harish Kumar

Manager-Tech in Diagnostics Operations, Karkinos Healthcare Pvt Ltd

IIHMR Bangalore transformed me into a versatile healthcare professional, bridging my generalist background with strategic management and technology-driven solutions. The curriculum prioritized real-world application of AI and Data Science, teaching their effective use in healthcare. Hands-on experiences—building solutions, managing events, and collaborating with clinical and business teams—cultivated innovation and adaptability. IIHMR Bangalore instilled a design-driven, problem-solving approach, empowering me to guide teams in digital pathology, health IT, and patient-centric solutions. This journey refined my identity as a healthcare innovator and leader, for which I am deeply grateful to the institute.

IIHMR Society

The Indian Institute of Health Management Research (Society) was established in 1984 in Jaipur with Public Health and Management at the core. The IIHMR society established campuses at Jaipur, Delhi, and Bangalore to improve the standards of health of the people through improved Management Research, Education and Capacity Building in Health Sector. IIHMR, Jaipur is a WHO Collaborating Centre and has been designated as an Institute of Excellence by Ministry of Health and Family Welfare, Government of India.

About IIHMR Bangalore

Established in 2004, Institute of Health Management Research (IIHMR), Bangalore is the South Campus of IIHMR, Society. In the year 2010, the Institute acquired AICTE approval for its Post Graduate Diploma in Management (Hospital and Health Management), a flagship Programme in which Knowledge, Research and Training create a distinctive edge for developing Managers for the Hospital and Healthcare Industry. IIHMR, Bangalore leverages on the collective strength of nearly 70 faculty across campuses of the Institutes at Jaipur, Bangalore, and Delhi.

IIHMR, Bangalore provides short-term training programmes like Hospital Management, Healthcare Leadership and many customized trainings for Hospitals and Healthcare Organizations to improve the skill set of working professionals. IIHMR, Bangalore has a proven track record of doing high research work in the areas of Hospital and Healthcare Management.

In the year 2015, IIHMR, Bangalore became the first educational Institute in India to be accredited by NABET as Hospital and Healthcare Consultant Organization for NABH Standards. We assist Hospitals and other Healthcare Organizations for NABH accreditation. In the year 2018, IIHMR received The National Board of Accreditation (NBA) & Association of Indian Universities (AIU) accreditation for its PGDM (Hospital & Health Management) Programme.

Vision

To create a leading Health Management Education and multidisciplinary Research Institution that will best serve the betterment of society.

Mission

Institute of Health Management Research, Bangalore is an Institution dedicated to improvement in standards of health through better management of health care and related programs. It seeks to accomplish this through Management Research, Education, Training, Consultation, and Institutional Networking in a National and Global Perspective.

Program Education Objectives

- PEO1:** Assume leadership roles in their chosen discipline of the Healthcare Industry
- PEO2:** Apply the concepts and techniques of Modern Management in their workplace
- PEO3:** Demonstrate their skills and knowledge in Planning, Building and Effectively managing Healthcare Organisations
- PEO4:** Effectively use technology, data, and management concepts to improve the Quality and Efficacy of the Healthcare System
- PEO5:** Advance Research and innovation to develop digital health and management solutions for improving healthcare delivery and experience

Program Outcomes

- PO1:** Apply knowledge of Management Theories and practices to solve Business Problems
- PO2:** Develop analytical and critical thinking abilities for data-based decision making
- PO3:** Aptitude to develop value-based Leadership Ability
- PO4:** Ability to understand, analyse and communicate Global, Economic, Legal, and Ethical aspects of the business
- PO5:** Ability to lead themselves and others in the achievement of Organisational goals, Contributing effectively to a team environment

Program Specific Outcomes

- PSO1:** Apply knowledge of contemporary management discipline and functions, develop entrepreneurial mindset and innovate solutions for the healthcare industry
- PSO2:** Understand the impact of advances in Health Tech (Digital Health, AI, MedTech and Pharma Tech) and multidisciplinary Learning and apply the same to develop sustainable healthcare management processes and practices

Accreditations

Postgraduate Diploma Programme (PGDM) in Hospital and Health Management & PGDM in AI & Data Science is approved by All India Council for Technical Education (AICTE) and accredited by the National Assessment and Accreditation Council (NAAC) and National Board of Accreditation (NBA)

IIHMR Bangalore is accredited as a **Consultancy Organization for NABH** by The National Accreditation Board for Education and Training (NABET) constituent board of the Quality Council of India (QCI)

PGDM programme has been accorded '**MBA equivalency**' by the Association of Indian Universities (AIU)

Awards & Ranking

PGDM Programme

Post Graduate Diploma in Management (Hospital & Health Management)

The Institute offers a two-year full-time Post Graduate Program in Management (PGDM), with specializations in Hospital Management, Health Management, Health Information Technology (HIT) Management and Pharmaceutical Management. PGDM is well designed to develop Doctors, Bio-tech Engineers, Pharmacy Graduates, Working Personnel, and Life Science / Other Degree holders as 'Professional Managers'. This program allows for a more holistic approach to confront the constant challenges the healthcare industry faces. IIHMR, Bangalore is geared to respond to the challenging needs of the Healthcare Industry. It is a high performing academic centre with outstanding Faculty & Staff, supportive Alumni and Students. Our reputation reflects the cutting-edge contributions of the faculty, the high calibre of student body, the dynamics of our progressive curriculum, technological orientation, and exceptional commitment to quality education and research – all in the ideal location of Bangalore Campus.

- Essentials of Health Economics
- Organizational Behavior
- Managerial Communication
- Essentials of Demography
- Marketing Management
- Human Resources Management

Term -2 Part B

- Introduction to Pharma Business Environment
- Financial Management and Accounting
- Essentials of Digital Health
- Essentials of Biostatistics
- Research Methodology
- Data Analytics and Visualisation
- Summer Training

2nd Year Subjects (Term III & IV)

Specialization: Hospital Management

- Hospital Planning
- Organization and Management of Clinical Services
- Marketing Management of Hospitals
- Hospital Management Information System and regulatory Aspects
- Health Insurance and Managed Care
- Business Environment and Strategy
- Quality Assurance in Hospitals
- Organization and Management of Support and Utility services
- Law & Ethics in Healthcare
- Artificial Intelligence and Digital Transformation in Healthcare
- Disaster Management
- Business Operations Research in healthcare
- Material and Equipment Management
- Dissertation

Specialization: Health Management

- Programme Planning, Implementation monitoring & Evaluation
- Applied Demography & Population Dynamics
- National Health Programs
- NGO Management
- Hospital Management Information System and Regulatory Aspects
- Health Insurance and Managed Care
- Business Environment and Strategy
- Quality Assurance in Hospitals
- Health Survey Research Methods
- Law & Ethics in Healthcare
- Artificial Intelligence and Digital Transformation in Healthcare
- Disaster Management
- Business operations Research in Healthcare
- Logistics and Supply Chain Management
- Dissertation

Specialization: Health IT Management

- Business Analytics
- Database Management System
- Hospital Management information system and Regulatory Aspects
- Health Insurance and Management Care
- Business Environment and Strategy
- Quality Assurance in Hospitals & Healthcare
- EMR/HER innovations in Healthcare IT
- Software Engineering Analysis & Design
- Artificial Intelligence and Digital Transformation in Healthcare
- Interoperability Standards in Healthcare IT
- Project Execution in Health IT
- IT for Resilient and Efficient Healthcare
- Dissertation

Specialization: Pharmaceutical Management

- Pharmaceutical Legal and Regulatory Environment
- Pharmacoeconomics
- Production and Supply Chain Management
- Principle of Clinical Research and Discovery
- IPR in Pharmaceutical Management
- Business Environment and Strategy
- Pharmaceutical Marketing and brand Management
- Market Research, Data Analysis and Data Management in Pharmaceutical Industry
- Pharmaceutical international Business
- Artificial Intelligence and Digital Transformation in Healthcare
- Business Ethics & Indian Values
- Fundamentals of Pharma Competitive Intelligence
- Entrepreneurship Development in Pharmaceutical Industry
- Dissertation

Electives

- Healthcare Innovation & Entrepreneurship
- Digital Marketing
- Social and Behavioral Change Communication

- Nutrition and Health
- Universal Human values

Post Graduate Diploma in Management (Artificial Intelligence & Data Science)

The two-year PGDM (Artificial Intelligence & Data Science) program is designed to develop skilled professionals who can integrate Artificial Intelligence (AI), Data Science, and management expertise to address the evolving challenges of the healthcare sector. The curriculum builds a strong foundation in healthcare principles, management concepts, statistical analysis, and AI fundamentals, advancing into supervised and unsupervised machine learning, data analysis, and product design. Students also gain exposure to cutting-edge technologies such as Big Data, IoT, and the Metaverse, preparing them to drive innovation and efficiency in healthcare and business contexts.

The program emphasizes practical learning through case studies, simulations, live projects, and internships, ensuring the application of classroom knowledge in real-world settings. Capstone projects provide hands-on experience in solving business and healthcare challenges. With guidance from experienced faculty and industry mentors, students develop leadership, problem-solving, and interpersonal skills, equipping them to excel as future-ready professionals in the dynamic healthcare industry.

Course Structure PGDM (Artificial Intelligence & Data Science)

Induction Courses

- Human Process Lab
- Written and Oral Communication

Foundation Courses

- Medical Terminology
- Basic Mathematics, Probability & Statistics

1st Year Subjects

Term I

- Health System and Hospital Services
- Healthcare Research Analytics and Statistics
- Programming and Software Development
- Designing and User Interface for Healthcare
- MIS With Application in Health (HMIS)
- Advanced Analytics 1 for Healthcare

Term -2

- Advanced Analytics 2 and Disruptive Technology in healthcare
- Management and Strategy in Healthcare
- Ethics, Regulation and Legal Aspects for AI in Health
- Professional Communication and Ethics
- Summer Training

2nd Year Subjects

Term I

- Technology Product Management
- Healthcare Financing and Fintech
- Business Development and Marketing
- Advance AI and ubiquitous computing for Healthcare Systems

Term -2

- AI and Business Analytics in Health Care
- Digital Health and Artificial Intelligence
- AI for Supply Chain Management
- AI for Smart and Connected Hospital
- AI and Blockchain for Health Insurance
- Quality Management System and Lean Six Sigma
- Dissertation

Key Features of the Programme

- Approved by All India Council for Technical Education (AICTE), Ministry of HRD, New Delhi
- Accredited by National Board of Accreditation (NBA)
- Accorded MBA equivalence by Association of Indian Universities (AIU)
- Live Project Participation, Field Visits, Case Study Methods, Hands-on learning, Simulation, Interactive & Participatory Learning Methodologies
- Exposure & Interaction with industry experts from Healthcare Sector and Associated Sector like IT, HR, Insurance, Market Research, and Medical Law etc.
- Co-curricular and Extra Curricular Programmes for overall development
- Three Months Summer Training in Hospitals and various Healthcare Organizations at the end of first Year
- Dissertation and Internship at the end of Second Year for four months with reputed organizations to gain knowledge & skills to handle managerial issues of major departments of Healthcare Organizations/ Hospitals
- 100% Placement Assistance and Mentoring

Summer Training Program

Summer Training programs are an integral part of the PGDM course work. The students are placed for 90 days respectively. They are placed in various Hospitals, Public Health, Health IT, NGOs & other Healthcare Organizations throughout the country and abroad to gain exposure on trending projects and in various departments of the organization. They are assessed based on their performance during this period.

Dissertation and Internship

Dissertation and Internship is an integral part of our Postgraduate Programme in Management (Hospital and Health Management). As part of the curriculum, each final year student is required to undergo Internship and Dissertation with a reputed organization for a period of three to four months. During internship, the student will assist the Administrator/Manager in day to day operations & research work. Through this process he/she is expected to gain practical knowledge and skills to handle managerial issues related to major departments of the organization.

The Training & Placement Cell

The Institute has Training & Placement Cell comprising of representatives from the Management & Students.

- The cell organises regular trainings before, during and post placements.
- Pre-placement activities such as: Industry Expert Interactions, Career Mapping, Counselling, Soft-skills Training, Mock Group Discussion, Mock Personnel Interviews, Logical Reasoning and Case Study analysis are organised to prepare the students for final placements.

- Certification Course on Introduction to Data Analytics, SEO, AI-based Pharma Management, and AI for Product Management.

Ms Mayukha Chakilam
Bachelor of Pharmacy

Technical Skills: MS Office, Power BI, Tableau

Languages Known: English, Telugu, Hindi

Areas of Interest: Portfolio Management, Business Development, Project Management, Product Management, API marketing

Summer Training and Internship/s:

- Summer Training for 3 months (April 2025 to July 2025) at MSN Laboratories Private Limited, Hyderabad

STP Title: *To establish DD-RAFT as a differential brand through hedonic evaluation in liquid antacid market*

Extra/ Co-curricular Activities/ Achievements:

- Advanced Excel by Udemy.
- Project Management by Google (Coursera).
- Product Management by IIMMR Bangalore.
- Strategic Services Marketing NPTEL.
- Scientific poster presentation on detailing tattoo complications.

**Mr Aditya Ramesh Kori**

B.Sc. in Life Science (Genetics, Microbiology, Biochemistry)

Technical Skills: Excel, Python, SQL, R, Power BI, Tableau, ML/DL, Figma, Postman, Jira**Languages Known:** English, Hindi, Kannada**Areas of Interest:** Business Analyst, Product Management, App development (frontend & backend), AI/ML Associate**Summer Training and Internship/s:**

- Summer Training for 3 months (May 2025 to July 2025) as a Solutions Pathfinder Intern, working under as a part of founder's office, Rachaita Labs, Bangalore.

STP Title: Yurgyam – Development of a Cross-Platform Ayurvedic Health Tracking and E-commerce App with Integrated Habit Reminders**Extra/ Co-curricular Activities/ Achievements:**

- Internship – Part of Karnataka State Health System Resource Centre, Bangalore.
- Certificate of completion for the Executive program in Managing Digital and Connected Health Cohort –2
- Projects:
 - AI- Agent Integrated with Health Observatory & Companion
 - Designing User Interface (UI) for RED Health Academy
 - Web Development-MIS Application for Heart Health India Foundation
 - Lung Disease Classifier (Convolutional Neural Network [CNN] Model)
 - Foot Measurement Estimator for Leprosy patients using a Clustering Model
- Certification in "Prompt Engineering for Healthcare"

Ms Vinita Barod

Bachelor of Pharmacy

Technical Skills: Excel, Python, SQL, R, Power BI, Tableau, ML/DL, Statistical Analysis**Languages Known:** English, Hindi**Areas of Interest:** Business Analyst, Healthcare Data Scientist, Machine Learning Associate, Product Manager**Summer Training and Internship/s:**

- Summer Training for 3 Months (May 2025 to July 2025) as a Data Analyst Intern at Actorius Innovation and Research Pvt. Ltd

STP Title: Integrative Analysis of Cancer Biomarker and Genomic Data for Precision Oncology**Extra/ Co-curricular Activities/ Achievements:**

- GPAT & NIPER Qualified
- Certification in AI for the Pharmaceutical Sector
- Certificate in Student Training cum Internship Program in Data Analytics with Gen AI by E&ICT Academy, IIT Guwahati.
- Participated in Healthcare Technology Conference (CAHO-2024) and Apollo Conclave Conference
- Projects:
 - Early Suicide & Stress Risk Detection – ML model using NLP and behavioral data (Voice + Text Inputs).
 - Leprosy Foot Length Clustering – Unsupervised ML model for early leprosy detection.
 - Cancer Risk Prediction (ctDNA) – ML & DL model predicting cancer risk from mutation profiles.
 - MIS for Heart Health India Foundation – React.js + Django system for patient record management.
 - UI Design for RED Health Academy – Designed responsive learning platform interface using Figma.

**Mr Sam Vikash**

B.Sc. in Perfusion Technology

Technical Skills: MS Office, Python, SQL, R, Power BI, Tableau, ML/DL, Figma**Languages Known:** English, Tamil, Malayalam**Areas of Interest:** Data Analytics, Product Management, AI Healthcare Strategist, Business Analytics**Summer Training and Internship/s:**

- Summer Training for 3 months (May 2025 – July 2025) as a Data Annotator for Organ PREDICT.AI
STP Title: *Comparison of Rule based and AI Chatbots of Mohan Foundation and Evaluation of AI Chatbot Performance*
- Internship for 6 months (August 2023 – January 2024) as a Perfusion Intern at Manipal Hospital, Yeshwanthpur, Bangalore
- Internship for 6 months (February 2024 – July 2024) as a Perfusion Intern at Manipal Hospital, HAL Road, Bangalore

Extra/ Co-curricular Activities/ Achievements:

- Projects: 1) Web Page UI Design – Heart Health Foundation: Built an admin UI for patient administration workflows. 2) Landing Page Design – Red Health: Designed a healthcare service landing page prototype (Figma). 3) Footwear Measurement Model – LEPR India: Built clustering-based AI model for custom footwear for leprosy patients. 4) Air Quality Forecasting – BBMP: Time-series model to predict city air quality. 5) Pneumonia Detection – Chest X-rays: CNN-based model for Pneumonia detection.
- Certification in AI for the Pharmaceutical Sector.
- Certification in Managing Digital and Connected Health (MDCH)
- Certification in Prompt Engineering

Mr Rohith P

B.Sc. in Physician Assistant

Technical Skills: Excel, Python, SQL, Power BI, Tableau, ML/DL, Figma, FlutterFlow, Jira**Languages Known:** English, Tamil**Areas of Interest:** AI Healthcare Strategist, Data Analytics, Business Analytics, Product Management, AI/ML Associate**Summer Training and Internship/s:**

- Summer Training for 2.5 months (May 2025 to July 2025) as a Solutions Pathfinder Intern in Rachaita Labs, Bangalore
STP Title: *Development of a Cross-Platform Ayurvedic Health Tracking and E-commerce Application with Integrated Habit Reminders*
- Internship for 12 Months (March 2023 to March 2024) as a Physician Assistant at Erode Medical Centre, Erode, Tamil Nadu

Extra/ Co-curricular Activities/ Achievements:

- Projects: 1) Web Page UI Design – Heart Health Foundation: Built an admin UI for patient administration workflows. 2) Landing Page Design – Red Health: Designed a healthcare service landing page prototype (Figma). 3) Footwear Measurement Model – LEPR India: Built clustering-based AI model for custom footwear for leprosy patients. 4) Air Quality Forecasting – BBMP: Time-series model to predict city air quality. 5) Capstone: Osteoporosis Detection – Knee X-rays: CNN-based model for Osteoporosis detection.
- Certification in AI for the Pharmaceutical Sector.
- Certification in Managing Digital and Connected Health (MDCH).
- Certification in Prompt Engineering.

Ms Mridhula R
B.Sc. in Renal Dialysis

Technical Skills: MS Office, Python, SQL, Power BI, Tableau, Figma, ML \ DL, Agile, Jira

Languages Known: English, Tamil

Areas of Interest: Data Analytics, AI \ ML Associate, AI Product Management, UX designer

Summer Training and Internship/s:

- Summer Training for 3 months from May 2025 to July 2025 in Organ PREDICT.AI as Data Annotator
STP Title: 'A Comparative Analysis of Rule-based Chatbot and AI-based Chatbot'
- Internship for 6 months (August 2023 – January 2024) as a Perfusion Intern at Manipal Hospital, Yeshwanthpur, Bangalore
- Internship Training on testing a Comparative Analysis of Rule-based Chatbot and AI- Chatbot

Extra/ Co-curricular Activities/ Achievements:

- Certification in AI for the Pharmaceutical Sector
- Projects: I have worked on real-world projects, including UI design for RED Health Academy, a MIS web application for the Heart Health India Foundation, and data science solutions such as Air Quality Prediction with the Prophet Model, and a Foot Measurement Estimator for Leprosy patients using a Clustering Model.
- For Capstone Project 'Alzheimer Stage Prediction Model' CNN Model for prediction.
- Attended a workshop on AI & Digital Transformation in Care Delivery.
- Completion Certificate 'Prompt Engineering for Healthcare' program.
- Certificate on Completion on 'Managing Digital & Connected Health'

Ms Markeeri Navatha
Bachelor of Pharmacy

Technical Skills: Python, SQL, Excel, Power BI, Tableau, ML/DL, AWS, JIRA, Figma

Languages Known: English, Telugu

Areas of Interest: Data Scientist, AI Product Manager, Data Analyst/Data Engineer, AI/ML Associate

Summer Training and Internship/s:

- Summer Training for 3 Months (May 2025 to July 2025) as Healthcare IT intern at Sakra World Hospital
STP Title: Completed project "Assessment & Outcome Analysis of Laboratory Process on IM Technology", analyzing TAT and workflow efficiency improvements
- Industrial Training for 1 Month (May 2023 – June 2023) Quality Control & Assurance department at Shilpa Therapeutics Pvt.Ltd Hyderabad

Extra/ Co-curricular Activities/ Achievements:

- Certificate of completion for the Executive program in Managing Digital and Connected Health Cohort -2
- Certificate of Completion on FHIR standards and healthcare interoperability.
- Projects: Capstone Project – Intern Finder: Developed and deployed a full-stack web application that provides resume analysis and AI-based internship matching for students.
- UI/UX & Web Development: Designed UI for RED Health Academy and built a MIS web application for the Heart Health India Foundation.
- Data Science Solutions: Implemented Air Quality Prediction using the Prophet model, Diabetes Prediction with a classification model, and a Foot Measurement Estimator for leprosy patients using a clustering model.

**Dr K. Arun Kumar**

Bachelor of Medicine and Bachelor of Surgery (MBBS)

Technical Skills: MS Office, Power BI, Tableau, SQL, Python, R, Figma, JIRA**Languages Known:** English, Tamil**Areas of Interest:** User Research, UI & UX Design, Product Management, Data Annotation & Curation, Clinical Scientist, Data Analytics**Work Experience:**

- 6 Months (March 2024 – August 2024) as Occupational Health Centre Medical Officer at Titan Company, Hosur.
- Worked as Freelance Doctor at various Hospitals and Industries in Bangalore

Summer Training and Internship/s:

- Summer Training for 3 months (1st May 2025 to 31st July 2025) as a User Research Intern in IIHMR Bangalore

STP Title: *User Research and Development of a Digital Diary for Autism Care*

- Medical Affairs Intern – Eka care (June 1st to July 31st): Curated and annotated clinical data for AI model training.
- Biomedical Data Summer Programme at Ashoka University (BDSA): Worked on Real world Hospital Data on a Cohort study using R Programming Language.
- Build a machine learning model for Tuberculosis (TB) detection using clinical datasets with Python (Scikit-learn/XGBoost). Deployed the model as an interactive Streamlit web application for real-time screening support.

Extra/ Co-curricular Activities/ Achievements:

- TN Startup Thiruvizha 2024 – Participated in Tamil Nadu's largest startup expo held on 28–29 September at Madurai, focusing on innovation and entrepreneurship.
- I-Heal 3.0 by ISB – Attended a healthcare leadership summit on “AI & Digital Transformation in Care Delivery”.
- Apollo Genomics Conclave 2025 – Participated in sessions on genomics, precision medicine, and the future of AI-led diagnostics, held in Bengaluru.

Ms Sonu Patel

Bachelor of Pharmacy

Technical Skills: Excel, Python, SQL, R, Power BI, Tableau, ML/DL, Figma, FlutterFlow**Languages Known:** English, Hindi**Areas of Interest:** Clinical Data Scientist (Junior), Product Management, Business Analytics, AI Healthcare Strategist**Work Experience:**

- 4 Months (September 2023 to December 2023) as Quality Control Trainee at Torrent Pharma, Pithampur, MP

Summer Training and Internship/s:

- Summer Training for 3 Months (May 2025 to July 2025) as a Solution Pathfinder Intern in Rachaita Labs, Bangalore

STP Title: *YURGYAM –Development of a Cross-Platform Ayurvedic Health Tracking and E-commerce App with Integrated Habit Reminders*

- Remote Internship for 3 Months (May 2025 to July 2025) as AI/ ML, Data Science & Health Education Intern at Xpedic Industry Pvt. Ltd.

Extra/ Co-curricular Activities/ Achievements:

- GPAT & NIPER Qualified
- Projects: I have worked on real-world projects, including UI design for RED Health Academy, a MIS web application for the Heart Health India Foundation, and data science solutions such as Air Quality Prediction with thand a Foot Measurement Estimator for Leprosy patients using a Clustering Model.
- AI-Powered Medical Chatbot: – Built a healthcare chatbot with Flask + Gemini API using prompt engineering for safe, layman-friendly responses.
- Certification in AI for the Pharmaceutical Sector

Dr Tejas Dev
Doctor of Pharmacy

Technical Skills: Excel, Python, SQL, R, Power BI, Tableau, ML/DL, NLP, Figma, Jira

Languages Known: English, Hindi, Marathi

Areas of Interest: Business Analyst, Product Management, Clinical Data Scientist (Junior), AI Healthcare Strategist, AI/ML Associate

Work Experience:

- 6 Months (December 2023 to May 2024) as Clinical Pharmacologist at Sarvadnya Multi-speciality Hospital and Critical Care Centre, Latur, Maharashtra.

Summer Training and Internship/s:

- Summer Training for 4 months (May 2025 to August 2025) as a Data Analyst Intern in Dvara Health Finance, Bangalore

STP Title: *Design and Development of Clinical Outcome Analysis Dashboard for NEEM360 Product*

- Internship for 12 Months (Aug 2023 to July 2024) as a Clinical Pharmacologist Intern at Vilasrao Deshmukh Government Medical College and Hospital, Latur

Extra/ Co-curricular Activities/ Achievements:

- Certificate of completion for the Executive program in Managing Digital and Connected Health Cohort -2
- Certification in "AI in Product Management" (NPTEL, IIT Roorkee, Elite, 2025)
- Certification in AI for the Pharmaceutical Sector
- Projects: 1) AI Agent for Personalized Drug Risk Assessment & Optimized Dosing, 2) Designing User Interface (UI) for RED Health Academy, 3) Web Development-MIS Application for Heart Health India Foundation, 4) Lung Disease Classifier CNN Model, 4) Air Quality Prediction with the Prophet Model
- Participated in the Healthcare Technology Conference by CAHO-2024.

Information for Recruiters

Dear Recruiters,

- The Job Notification and the campus visit confirmation form enclosed provides the primary basis of communicating the details of the positions offered and intended intake of the students. Please, fill the form and send it to us.
- For scheduling the On-Campus Placements, the following information shall be made available to the Training & Placement Cell beforehand:
 - *Number of students intended to be Recruited, Job Profiles, Location, Compensation and Perks offered by the company*
 - *Eligibility criteria and preferred mode of selection*
 - *Preferred dates for Placement*
 - *Names of shortlisted students for Recruitment/Interviews if it is done*
- 'Placement Session' is scheduled from September 2025 to June 2026. Interested organization can visit the campus during this period for placement. If required, interviews could be conducted at the organization's premises (on-site) for the shortlisted candidates with prior arrangements.
- The organizations are requested to release the list of selected candidates to the Training & Placement Cell and route the offer letter through the Cell.
- Selected students will be able to join their respective organizations on completion of all the Theory Classes and Academic Requirements of PGDM (Hospital and Health Management).
 - The first three to four months of the placement will be considered as Dissertation/ Internship for awarding the degree. Therefore, the recruiting Organizations are requested to support the students by providing information & in completing their dissertation
 - Please send all communications regarding placements to the email given below:
