HOSPITAL MANAGEMENT AND DIGITAL HEALTH

*Awaiting AICTE
Approval*

August 2026

Duration of the course: **1 year**

Online classes:

Saturday: 5.30pm to 7.30pm

Sunday: 9.30 am to 11.30am

Program Fee:

Rs. 70,000/-

Last Date for Application Submission: **July 25, 2026**

About the Program

In today's rapidly evolving healthcare landscape, the need for skilled professionals who can seamlessly integrate management expertise with digital innovation has never been greater. The Executive Program in Hospital Management and Digital Health is designed to equip healthcare professionals and aspiring leaders with the knowledge and practical skills required to efficiently manage hospitals while leveraging emerging technologies.

This program focuses on hospital operations, healthcare systems, digital health tools, data-driven decision-making, and patient-centric care, enabling participants to enhance service quality, improve efficiency, and drive innovation. Tailored for working professionals, it offers a flexible learning approach, empowering them to advance their careers without interrupting their professional commitments.

Objectives of the Program

To develop strong managerial and leadership skills required for effective hospital and healthcare administration

To provide comprehensive knowledge of hospital operations, quality standards, and patient care management

To build competence in digital health and data management, enabling better decision-making and efficient healthcare delivery

To equip working professionals with practical skills to manage healthcare organizations while balancing their careers

To promote a patient-centric and technology-driven approach to improve healthcare outcomes

Key Highlights of the Program

- Weekend Executive Format: Designed for working professionals, allowing you to upskill without interrupting your career
- Industry-Relevant Curriculum: Covers hospital management, healthcare operations, digital health, and data-driven decision-making
- Immersion Program: Get real-world exposure through hospital visits and field-based learning, helping you understand actual healthcare systems, workflows, and challenges
- Skill Stations for Practical Learning: Hands-on training modules that simulate real hospital scenarios—enhancing skills in operations, patient management, quality processes, and digital tools
- Focus on Digital Health: Gain insights into AI, health informatics, electronic health records (EHR), and emerging healthcare technologies
- Internship Opportunities

About IIHMR Bangalore

Established in 2004, the Institute of Health Management Research (IIHMR), Bangalore, is a NAAC 'A' accredited premier institution for healthcare management education, research, training, and consultancy in South India. An initiative of the Indian Institute of Health Management Research, Jaipur Society, founded in 1984, IIHMR Bangalore has built a strong legacy in health management education and multidisciplinary healthcare research over the past two decades.

The Institute offers AICTE-approved PGDM programs in Hospital & Health Management, Artificial Intelligence & Data Science in Healthcare, and Pharmaceutical Management, along with a Doctoral-level Fellowship Program in Management (FPM). IIHMR Bangalore is recognized for its academic excellence, with its flagship PGDM in Hospital & Health Management accredited by NBA and granted MBA equivalency by the Association of Indian Universities (AIU).

Further strengthening its commitment to quality healthcare, the Institute is accredited by NABET and the Quality Council of India (QCI) as a consulting organization for NABH. IIHMRB has been recognised as 'Gunvatta Pathashala' by QCI. IIHMR Bangalore has also established ADMIRE (Advancing Digital-Health Management, Innovation, Research, and Education), a dedicated Centre for Digital Health focused on R&D, AI-driven healthcare solutions, digital health skilling, innovation, and incubation to advance the future of healthcare.
